

KEYNOTE - - DESCRIPTION / OBJECTIVES / REFERENCES

LET'S GET REC'D

Getting Rec'd is much better than **Getting Wrecked**, right? As Park and Recreation Professionals, we all intrinsically understand the benefits of Recreation; *BUT* all too often we don't take the habit-forming steps needed to **Get Recreation** into our own lives. Really though, it is our communities that need to "**Get Rec'd**;" as Recreation is "Essential" to every thriving Community. Come learn how to turn these "Big Ideas" into practical "Action Steps" that you can start accomplishing tomorrow.

This fun and engaging Keynote Experience will energize you to soak up the ideas learned here at Conference and take them back to your communities where you will energize your own Park and Recreation Agency to help them **THRIVE!** Our affable speaker, Mark Honberger, brings over 30 years' experience as an entrepreneur in the Parks and Recreation Profession.

OBJECTIVES:

- 1) Investigate what it means to "**Get Rec'd**" compared to what it means to "**Get Wrecked**"; and apply the wide-ranging benefits of Recreation both to yourself personally and to your agency professionally.
- 2) Internalize what it means to "**Mind The Gap**" for those things that are not being done or not being said, and then take a Nuts-&-Bolts approach to apply this foundational concept in very tangible ways to the Parks and Recreation Profession.
- 3) Dig deeper on how to take "**Getting Rec'd**" to the **Next Level**, doing at least **ONE THING** to "improve" your agency, with tangible take-home ideas designed to make it happen.
