

VIVO MIDI REEDLESS/WIRELESS ACCORDION

SIWA & FIGLI has recently developed the new **VIVO Midi** Accordion designed for both the professional and first time users of a midi system. The instrument weighs only 17 pounds with a full size 41 treble , 120 or 96 bass system and 19" keyboard. The VIVO is very user friendly and has more than 600 sounds built in (more than 100 are accordion) The VIVO features a wireless system by Panda Midi all concealed in the bellows allowing for unlimited mobility even with a connected Optional midi module or keyboard. A variety of finishes are

available. Accordionists will surely be happy to enjoy playing this instrument with all it has to offer.

GENERAL CHARACTERISTICS:

- 5 SECTIONS SEPARATE (TREBLE INT.TREBLE EXT, CHORDS, BASS, AUX EXT.)
- 2 MIDI OUT (internal sounds, external expander)
- More than 600 sounds are built in the unit. More than 100 sounds are accordions (Italian French, classical, jazz, German, diatonic, etc.) More than 450 are General Midi sounds. 60 sounds, (such as Elkavox, Farfisa), are combined sounds with layers and splits.
- 24 COMBINATIONS for immediate use that memorize all registers for left and right hand including Sounds, Volumes, Octaves and Bellow Expression
- Volume control with LEDs (for treble, chords, bass)
- Dynamic bellows expression for left and right hands
- Octave change for each section
- Magnetic contact reliability
- Transpose in all keys
- Wireless transmission of all internal functions and connected functions even through midi.
