Training:

Sit

Wait

Jumping (Working on)

My Foster is already: Neutered (Male), up to date on vaccines, heart worm checked

Does your foster have any special medical needs? Melo is on a low-fat diet

More Info: Melo is a 6-year-old Boston Terrier with beautiful blue eyes. Don't let his age fool you. This big boy is full of energy and loves to play. His current foster home is working on jumping as this boy can jump! This might be great for someone who is interested in agility training. When he is not playing and being cheeky, Melo will lay around and always look for a cuddle. Melo came into rescue with a mast cell tumor. Luckily, MWBTR was able to get him the needed surgery and now is ready to go. Melo does need to be on a low-fat diet to prevent pancreatitis. Melo is good with other dogs and constantly wants to be around his foster brothers and sisters. He even tries to be friends with the cats (the cats are not as interested). He's currently being fostered with older children and does well with them. Since he is a bigger Boston and has endless energy, he would be more suited in a home with older children or a more experienced household. If interested in Melo, please fill out an application today.
