MORE INFO: Powder loves playing outside with toys. He is highly intelligent and requires a lot of stimulation. A home with another young dog and a safe yard would be perfect for him. He loves to play with empty plastic bottles and frozen ice cubes. He is over-confident and needs a leash outside. He loves to sleep in the bed with you and is an expert snuggler. He can't eat peanut butter, but loves to eat grass.

His favorite toys are kongs with treats or yogurt, puzzles and chew bones. He is vocal and likes to communicate. He gives clear bathroom need signals by direct eye contact without blinking while invading your personal space. Amazing special dog that needs a spacious yard and a canine friend to make his dreams come true.
