

Frankie's Foster Write Up

Frankie OH1548

Ready for Adoption!

Black & White - male – neutered

Boston Terrier - Frenchie mix

DOB: 12/26/2024

Weight: 15 lbs

Up to date on vaccines and HW testing/preventative.

Good with other dogs; a slow, supervised introduction is always best.

Cats are unknown.

Kids - he is good, but is ALL puppy and will jump. Supervision between kids and dogs is always best. He is working on the jumping manners.

Crate trained up to 4 hours.

House Training is about 50% - will need adjustment time in new home to learn the rules.

Energy level is highly active - he is all puppy. Because Frankie had an injury to his front left leg, he has been crated for the healing process. Would benefit from puppy training, walks and enrichment exercises.

Working on basic manners: come, sit, wait, stay, kennel up, quiet, etc.
