More Info: Mac is a cuddler who loves his people! He is amazing with our 4 year old who loves him the same. He loves to give kisses especially when you first wakes up in the morning. He likes sleeping under the blankets, like a typical Boston, in between your legs. He also just loves finding a sunny spot in your home to sunbathe and nap. His energy is very low. Mac will paw at your hand when you stop petting him. He loves his chest rubbed. He would do best as an only dog where he can get all the love and attention. I've only heard him bark twice and that was because someone was at the door and there was a deer in my back yard. He listens well, very food motivated. Mac will carry his bone or toy anywhere. Even on walks! He is a very sweet big boy but a gentle giant, especially with my young daughter.

He doesn't care about other dogs walking in the neighborhood and ignores them, but, with little dogs he gets upset and growls if a dog starts sniffing his butt when they meet. He will chase squirrels if he isn't on a leash! I don't have a fenced in backyard and I let him off on the leash, he does his business, and comes right back to the door.
