

Foster Family Report

My Home is located in: Illinois

Foster Dog ID: IN964

Foster Dog Name: Poppi

Foster Dog Gender: Female

Coat Color: Black & White

Breed: Boston Terrier

Approximate Age: 10 Yrs. Old

Approximate Weight: 12 lbs.

Good with other Dogs? Yes, but her vision is a hindrance because she cannot figure out personal space, especially at meal time, she may dive into someone else's food dish. This could place her in danger.

Good with Cats? Doesn't seem to bother them

Good with Kids? Denise Yoder stated she was good with her granddaughter. I don't have kids in my home.

Crate trained? We keep her in a small bathroom when we are not home

Housebroken? Somewhat- will go outside if taken, but has had accidents in our home too.

Energy Level: Calm

Training: None known. She was rescued from the street where she was dumped.

My Foster is already: Spayed (Female)

Needs to complete medical care before adoption? None

Does your foster have any special medical needs? Yes, she seems to have bilateral cataracts that cause her SIGNIFICANT visual problems. I feel it is safe to say she is legally blind. She can jump up onto a couch or chair and likes to snuggle. She sleeps well in bed with you all night and doesn't wake up until you do. She bumps into furniture, like cabinets, chairs and walls.

More Info: Poppi is a gentle quiet soul. She has great hearing and is a good watch dog. She barks appropriately at noises, etc. She gets along with other dogs, but her vision is a big hurdle for her. She doesn't really do stairs, and a house with no stairs or the ability to protect her from falling down stairs would be best. In our home, she seems to prefer me over my husband, maybe she is more of a lady's dog? She is fine around men, but seems to be more attached to me at this point. She doesn't really play with toys or anything but loves bones, treats and chewy treats.
