My Foster is already: Up to date on vaccines and heartworm checked

Needs to complete medical care before adoption? Whiskey will be spayed and available for adoption after June 4, 2025.

Does your foster have any special medical needs? No

More Info: Whiskey is the sweetest, happiest, 2-year-old girl who is a perfect mix of lovey couch potato and fun-loving, playful gal. She enjoys being close to or on her people but she also wants to play and go for speedy walks if you're up for it. Whiskey's happy place is on the couch with her people or in the backyard on a sunny, warm day. She also loves to play with people and dogs if they're up for it. If not, she will chew her bones to entertain herself. She has all the energy in the world for walks if you want to go but she still needs to learn walking manners because she pulls and darts after birds and squirrels when she sees them. Thankfully she's light as a feather and just ends up walking on her back legs for a bit and

then continues walking. Whiskey loves to give kisses and be loved on. She tries to play with her elderly foster siblings but they don't play anymore. They do tolerate her kisses though. She would be a fun-filled doggie playmate for a lucky dog. Whiskey is crate trained and can be left out of the crate for short periods of time when alone because she's not destructive but she is not fully potty trained yet. She's working on it and does great when let out often and monitored. Whiskey is scheduled to be spayed on June 4th and will be available for adoption after.
