MORE INFO: Molly loves to play with toys, mainly balls. She will amuse herself by rolling a ball on the floor and chasing it. She will become ball aggressive if another dog tries to take it from her. She likes to sit or cuddle with you. She also walks on a leash well. Molly has had a rough life and has known abuse most likely by another large dog that lived with her. She was turned in as a stray with a serious eye injury and scars. She needs a home that will teach her to trust again.
