

We pride ourselves on improving lives on a daily basis. However, we spend a lot of time and effort on fundraising to make sure we have the resources that enable us to provide quality prevention and education programs, while providing support for current and future clients.

A few years ago, we found a solution to this by creating an easier way to give, through our Constellation Club program. Constellation Club members support STAR with a monthly donation that is automatically charged to their credit card. For us this is extraordinary, as the funds simply show up in our account and we don't have to stop changing lives to raise these vital funds.

Our Constellation Club donors also find it very convenient as they don't have to take the time to write a check or make an online donation - it just happens. It also allows some donors to stretch their giving by spreading out the payments over the full year.

The other great part is that when we contact our Constellation Club members, we simply get to thank them and tell inspirational stories about how their donation is changing lives. We owe it to all our supporters to let them know how their support makes a difference, and to tell them how grateful we are for their contributions.

To join this special group by making a secure, monthly gift online, go to our [donate page](#) and click on [monetary gifts](#). Choose a donation amount that is meaningful to you, then click the box that says "Multiply your impact. Make it Monthly" It's that simple!

If you have questions or would like to support STAR in other ways, please contact us at star@staralaska.org.

Thank you for Standing with STAR!
