SEXUAL TRAUMA PREVENTION AND RESPONSE:
More than just a tagline.

Throughout our rebranding process this year, our goal was to make sure what we do is abundantly clear.

PREVENTION

Our prevention work includes youth educational presentations, adult education & professional training, and community outreach in multiple ways, including informational booths and online seminars, and educational resources provided through our website.

RESPONSE

From that initial call for help on our 24-hour crisis line to medical exams and interviews, court accompaniment and legal advocacy as well as referrals to victim services, our advocates are there to provide support and information in these areas and more. Ongoing support includes follow up advocacy appointments, counseling and support groups.

Our Mission

STAR'S mission is to prevent sexual trauma and provide comprehensive, collaborative crisis intervention, advocacy, and support to victims/survivors, their families, and our communities.

THANKYOU

Client Testimonials

Message to our Prevention & Education Team

"Hello,

Thank you so much for presenting your bystander intervention workshop to our residents. The feedback we received from the attendees was phenomenal. You not only helped a vulnerable group of people feel welcomed, but gave them important tools to help keep them selves and our whole community safer.

We look forward to sharing your information with the rest of the residents and our fellow housing neighbors."

Letter from a STAR Client

"...What STAR provided for me that day, was peace of mind and the ability to really focus on healing and moving forward. It allowed me to put my time and energy into my family, without having to stress about becoming homeless. During that time, I was able to make some adjustments so that I could sustain everything on a one-person income, which is something I wouldn't have been able to do if I was still trying to get out of the hole.

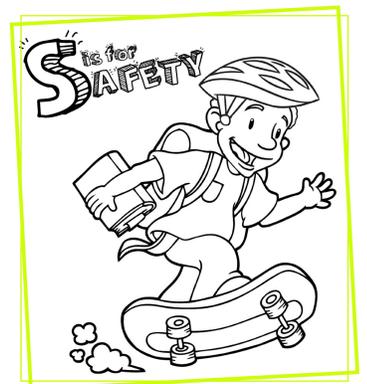

I no longer need financial assistance from STAR, but I continue to stay connected to my advocate for support and have been connected with counseling services so I can continue on this journey and path to healing. My hope is that no one has to go through a situation like mine, but if they do, I hope they are able to connect with an agency like STAR."
