News Flash — Introducing STOPLIGHT 199

Stoplight 199, the newest member of the Big Image family of vibrant, soft printing substrates, is the answer to a full range of your event backdrop needs.

Lightweight and foldable with a 100% black opaque backing, Stoplight 199 is available up to a game-changing 16-foot height. It was developed to eliminate the worries of ambient light spill and hardware ghosting while offering the vibrant image quality and ease of use people expect from Big Image Systems.
