

Christina Calvert

President PWCinc.President@gmail.com

Christina has been employed by the FAA for almost 30 years. She has spent most of her career at Kansas City ARTCC and has held numerous positions: Certified Professional Controller, Traffic Management Coordinator, Training Support Specialist, Operational Supervisor, Operational Manager, and Quality Control Support Manager. She spent almost a year as the District Support Manager for Quality Control before she accepted her current position as Central Service Area Executive Technical Representative.

Organizational Background

Christina started serving on the PWC Board in 2010 as Central Regional Director and spent two terms in this position. She was the Conference Chairperson for the 2015 National Training Conference in Kansas City. Most recently, she served as the Vice President from 2016-2018. She has been active in the last few conferences, served on the scholarship committee, and has coordinated regional training and socials.

Other Information

Christina completed the Program for Emerging Leaders and was a district facilitator for the Air Traffic Leadership and Development Program. She was a Girl Scout Leader for ten years and is passionate about advocating for and mentoring women and girls. She is also a member of the FAA Managers Association, Women in Aviation, and the Air Traffic Control Association.

I am interested in serving as the President because I would like to give back to this organization that has helped me in so many ways. I want to increase our membership, incorporate our international members, and keep the forward momentum going. I want to encourage more networking and mentoring outside of conference. Another focus of mine will be succession planning. We need to develop and mentor future board members. I believe that once someone gets involved in PWC, they will inevitably be as passionate about this organization as I am.
