Set-Up for Painting

Place plastic, newspaper or some kind of protector for your table

Lay out your canvas, brushes, mixing plate get water, only open paints when you are actually ready to use them.

Plan your painting.

What are you comfortable with? You can paint the background first or paint the subject or paint them both a little at the same time. See the other side for color mixing tips.

Clean-Up & Brush Care

Wash the brush with warm water – you may use a small amount of soap, push and mold the brush into its proper shape, let it dry naturally do not let the hair touch anything so that it maintains its shape & let it dry completely before sealing it in an art box or a storage bag to prevent mold and mildew.
