Loan Management Software

Credex Systems has been a supplier of Consumer Loan Origination & Servicing Software since 1989. Our Unity product allows access to your branch data real time from any internet location or from your local server. It takes care of your loans from the application/origination and offers complete loan servicing. Centralized real time collections and document imaging are just a few of the hundreds of features to increase the productivity of your staff. Our excellent customer service enhances our great products and is available 24 hours a day, every day of the year.

Payments, meet progress.

Is legacy technology holding your business back from achieving progress? With PayNearMe's modern and reliable platform, you can offer more payment options, increase acceptance rates and lower the cost of processing—all through a single contract and integration.

"The addition of Cash App Pay gives our customers even more choice and flexibility for making their auto loan payments. PayNearMe is helping us meet our customers where they are by enabling payments at any time, anywhere and in any way they want to pay."
