

WSAC Communications Meeting August 2020

Present: Commissioners Cabral and Cabus, Jessica Dyszel

Survey is live! Already getting interest. Will post a reminder about the survey the week of September 7th. Survey link will be posted to the WSAC website the evening of Monday the 17th.

Minutes need to be added to the webpage to make it the most current: need committee minutes to be submitted to communications committee in Word format.

Commissioner Handbook, no news. Jessica needs to work on it.

Outreach to apartment updates: Commissioner Cabus started initial list, Commissioner Cabral has started reaching out and has contacted the majority of them to get official contact information (emails for sending information to). All of the people that Commissioner Cabral talked to were thankful for the list of city resources available to renters. Hopefully the management companies send along the information. Have found some extra pockets of apartments and townhouses to reach out to.

No old business

New business. Vision Zero exploration and training. It is important for residents to point out problem areas on the roads. <https://vision-zero-columbus.hub.arcgis.com/> (copy and paste the link into your web browser if it is not hyperlinked).

Next meeting: September 14th, 7pm.
