

West area commission communications committee meeting October 25, 2021

Present: Commissioner Cabral, Eli Bohnert, Jessica Dyszel, Bethany Nartker

Introductions: why we are here today, what we are looking for the commission to do. Eli has been to a lot of the city redistricting meetings. Commission kept coming up. Is going to be applying to be a commissioner.

Bethany is a real estate agent in the area. Went over why the commission is important to the area and the basics of how it works.

Will ask new commissioners to give feedback on the student handbook and what would be good to add for new commissioners.

Still in need of a commission secretary.

Would like to recruit Bethany to help get the neighborhood flavors and pictures to add to the website, to personalize the web page to the community.

Eli suggested a sticker program for local businesses to show their support for the commission.

Website domain, transferring domain from Wix is becoming an issue again. Waiting on a response from Wix.....  
Talked about the lack of public meeting space within the area, still an issue. How sidewalks and multi use paths are important to the area for connectivity and commuting.

Reminder that the calendar on the webpage is the best place to find out more about meetings and training opportunities.

Next meeting is November 23rd, 2021.
