

## Fall 2020 West Scioto Area Commission Survey Results

The purpose of this survey was to gather information from area residents. This survey focused on the zoning and development process and other topical information.

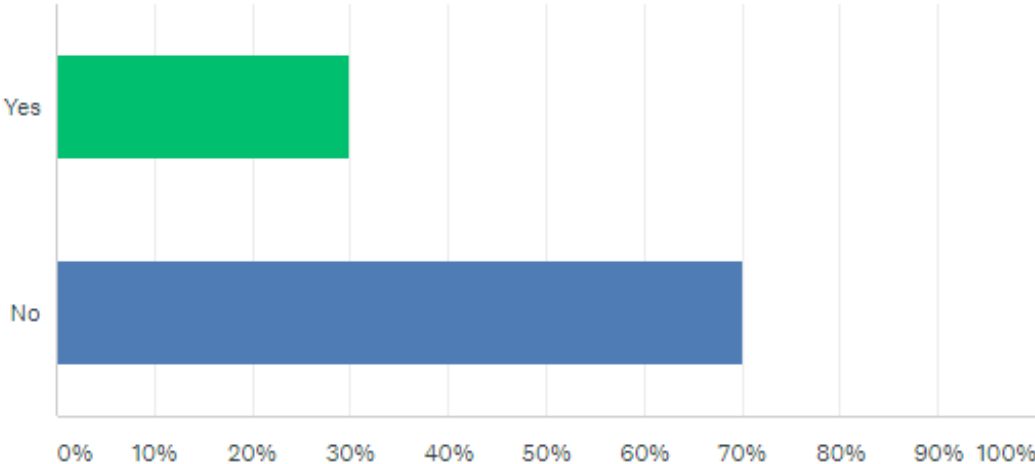

### How well you think that you understand the Zoning and Development process in the City of Columbus?

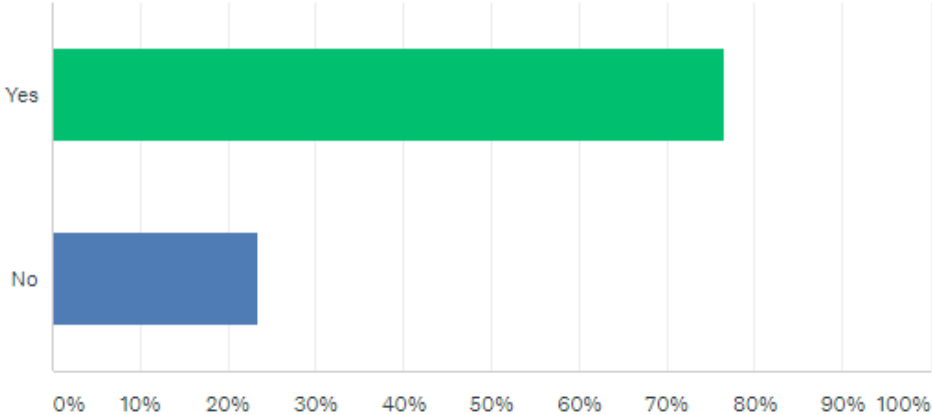

### Which of these groups have you heard of before or understand the role of?

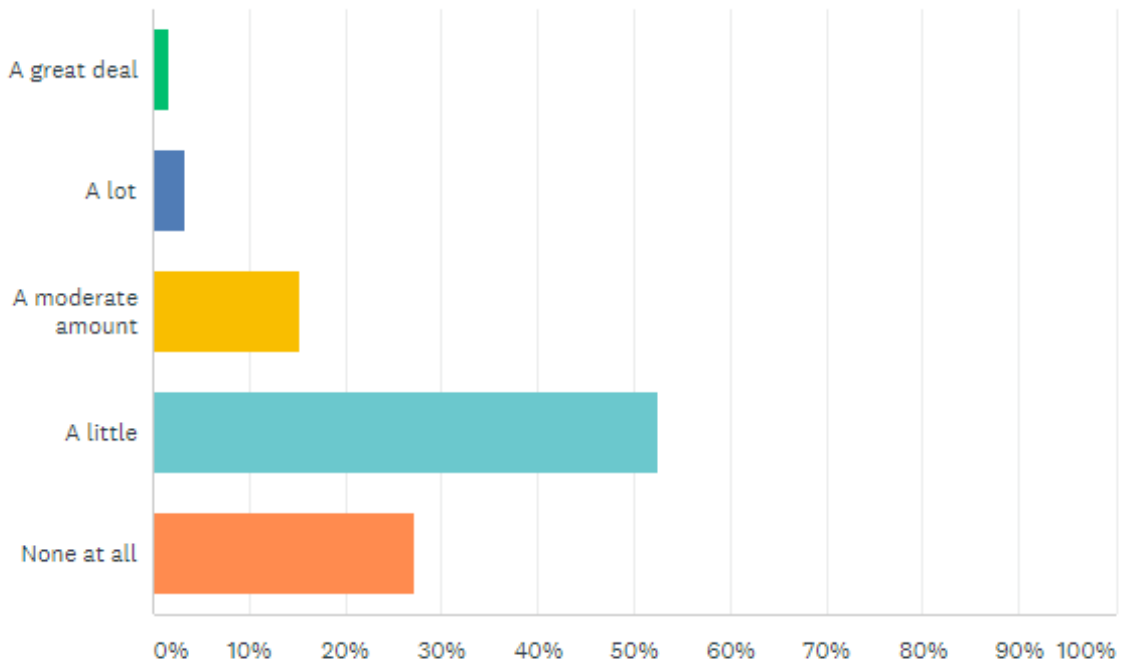

Have you used the Citizen Access Portal on the City of Columbus Website to look up an application? <https://portal.columbus.gov/permits/>

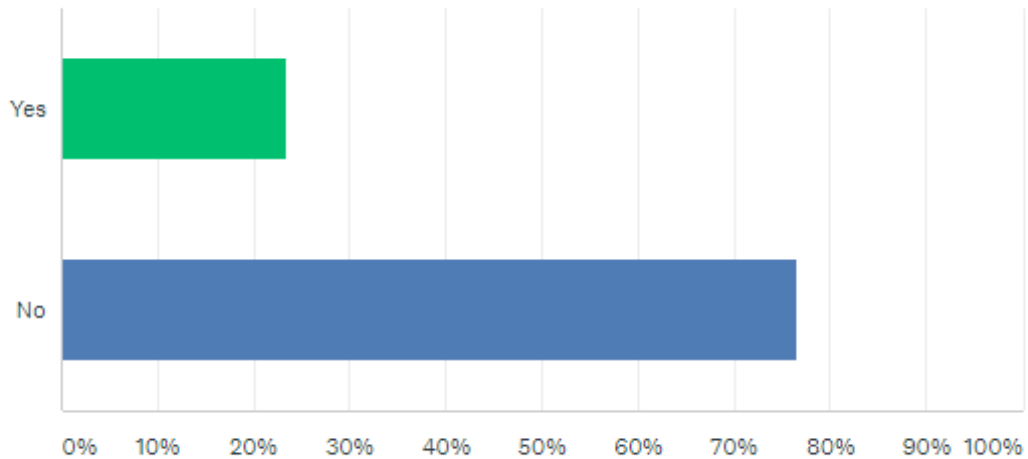

If the West Scioto Area Commission held a training on the topic would you be willing to attend (virtually).

**Do you think that the City listens to the residents of our area regarding zoning concerns?**

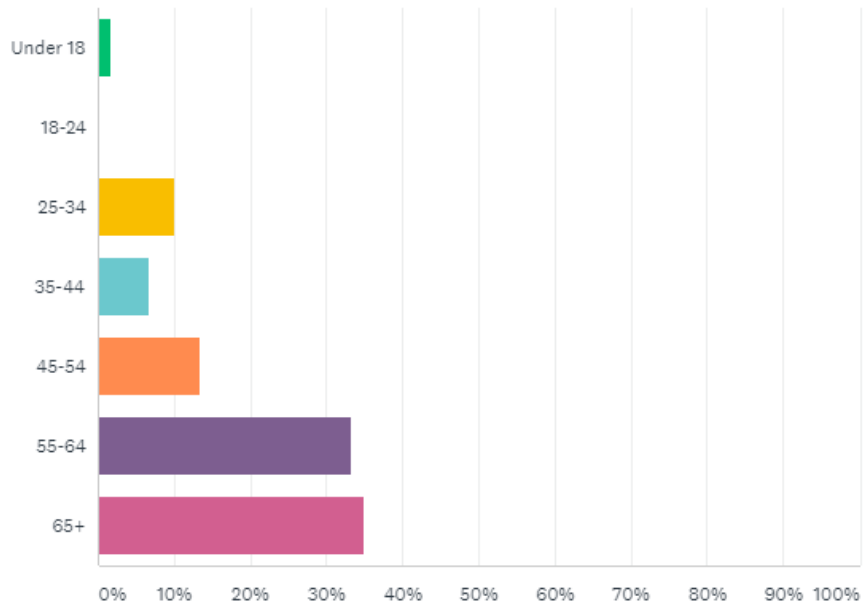

**Should tax abatements be available to new housing that is not affordable to the median income in the area (median household income from 2018 was \$63,725)**

## How has the COVID pandemic changed your work habits and community involvement? (summary of results)

Don't frequent restaurants, movies, concerts anymore. Working from home more often. Less involvement/volunteerism, less interactions with neighbors. Can't work/can't volunteer because of homeschooling/child care. Spending more time at local parks. More virtual interactions.

### What is your age?

### Which neighborhood do you reside in?

Neighborhood	Number of Respondents
Scioto Woods	20
Marble Cliff Crossing	10
Scioto Pointe	2
Dublin Road	2
West Scioto	2
