Mobility survey. City provided handouts for canvassing. Digital efforts were made. It was an opportunity to talk about the commission, ways to participate in the commission and get more community buy-in. **Commission should capitalize on these active engagement opportunities so that the commission is supported in the future.** Survey results will be shared when they are provided by the city.

Still having some issues with Wix. They do now want to issue a credit for our canceled service. They should be avoided at all costs.
