

November 2020 Communications Committee Meeting

Present: Commissioners Cabral and Cabus, Jessica Dyszel

Fall Survey results will be finished and published shortly

Progress on Commissioner Handbook, none right now but we do need to circle back to it.

Discussion of City Area Commission Webpage

-Rita is able to log in now so we have two people who can edit

- The City would like the page to be updated and current

-Until the format is finalized the recommendation of the committee would be keeping our website up and running, transition to constant contact.

-All documents would also need to be added to the city page as well as hosted on our page

-The upside is the blog feature that allows for easy sharing of photographs, neighborhood representation. We need to get participation!

Survey Highlights:

75% of respondents (out of 60 responses) said that they would attend a virtual training if WSAC held one. We need to get someone from the City to do a walk through of the Citizen portal.

Next meeting is December 15th at 7pm.
