

Thank you for considering Berks Catholic and visiting our Virtual Open House where you will find materials to familiarize yourself with Berks Catholic and the extraordinary things our school has to offer your child.

Our website is berkscatholic.org, and anything you want to know about the Saints can be found there. This is a terrific way to become familiar with our community. For a more personal perspective, please like us on Facebook and scroll back through our posts or videos. We also have a YouTube channel: BerksCatholicHS.

As Director of Admissions, I have the pleasure of meeting most students and their families before they become Saints, and I have the privilege to work with so many of them during their high school years. Seeing the students incorporate Berks Catholic's core values each day reminds me of how important the role is of our faculty and staff. Our students are the reason we are all here, and their success is what motivates us. I share your enthusiasm about your child's future, both at Berks Catholic and after.

I am confident that our school will provide your child with a strong academic foundation while preparing for the future, whether it's college, military or a career path. We pride ourselves on teaching and following the Gospel values while incorporating our four pillars of success: God, Family, Academics, and Fun! Teaching and growing with these core values will help guide your child towards a successful future.

*I am so blessed to be working in such an amazing atmosphere! If you have any questions at all about Berks Catholic or the admissions process, please do not hesitate to contact me. 610.374.8361 ext. 244.
