

# COVID-19 Vaccine Fact Sheet

## Phase 1B Medical Conditions

### Ohioans with severe congenital, developmental, or early-onset, and inherited conditions

Vaccinations for this group of Ohioans will take place in two phases. During the first phase, beginning Feb. 1, eligibility will begin with individuals who have a developmental or intellectual disability AND one of the conditions listed below. During the second phase, beginning Feb. 15, eligibility will expand to any individuals with one of the conditions below:

- Cerebral palsy
- Spina bifida
- Severe congenital heart disease requiring hospitalization within the past year
- Severe type 1 diabetes requiring hospitalization within the past year
- Inherited metabolic disorders including phenylketonuria
- Severe neurological disorders including epilepsy, hydrocephaly, and microcephaly
- Severe genetic disorders including Down syndrome, fragile X syndrome, Prader-Willi syndrome, Turner syndrome, and muscular dystrophy
- Severe lung disease, including asthma requiring hospitalization within the past year, and cystic fibrosis
- Sickle cell anemia
- Alpha and beta thalassemia
- Solid organ transplant patients.
