

Running with the Vision:

Go Harvest Mission Center is training and commissioning the workers in the next generation to go to all the states and divisions of Myanmar in order to win souls, plant churches, strengthen communities, provide aid, distribute Bibles to every person and become mission sending nation.

Principle: The issue is every person has a desire to know “who am I and what is my purpose in life?”

Past: Historically, many have lived their lives by trial and error while some have sought their true destiny.

Present: Presently, a large number of people live in survival mode not knowing what lies ahead. Few believe they have the ability to control their future or understand their purpose.

Proposed: People working through teamwork are empowered and mobilized to develop the resources within sphere of influence in order to help themselves, the people around them, and the nation.

Participation: Through teamwork, this organization, working in conjunction with others, has developed an effective method to carry out the vision. This approach can then be duplicated to promote leadership, prosperity and hope one community or nation at a time.
