
Go Harvest Mission Center “Then he said to his disciples, “The harvest is plentiful but the workers are few. Ask the Lord of the harvest, therefore, to send out workers into his harvest field.” Mathew 9:37-38

A Nation’s Past: For nearly 70 years, this Buddhist nation of Myanmar, filled with millions of people, experienced atrocious injustices and human rights violations that stripped the people’s dignity. For decades, this nation has been under direct bad leadership or, at best, indirect military control. Due to this abuse of power, it is estimated that over one million people of varying ethnic groups were slaughtered through killings, creating many millions of refugees that have scattered around the world to any place that would take them in, separating families and destroying lives. During this time, almost all aspects of society from media, business, production, and beyond were controlled by this militarized government resulting in the rich getting richer and the poor getting poorer. Even though this nation has an abundance of natural resources, it has one of the largest in- come gaps in the world.

A Nation’s Future: In the midst of such a bleak situation, the hope of the Gospel is rising and a story of redemption is unfolding. It’s only been the last few years since the nation has opened, and now is the time for the Gospel of the Kingdom to bring transformation! We have a unique window of time to shape the wet cement of the nation’s foundation and it will take all of us as the body of Christ.

“The harvest is ripe... ”
