Join Stillpoint's Speaker Series for John Phillip Newell as he discusses his new book, Sacred Earth Sacred Soul, focusing especially on the three graces of Celtic wisdom for today.

THE THREE GRACES

- The Grace of Nature
- The Grace of the Human Soul
- The Grace of Awakening

Celtic tradition cannot be reduced to a set of principles or beliefs but includes at its core the conviction that we need to essentially listen to what our soul already knows — that the earth is sacred and that this sacredness is at the heart of every human being and life-form.

John Phillip holds that to awaken again to this deep knowing is to be transformed in ways that we choose to live and relate and act. We need this awareness among us again today, urgently.

This livestream presentation by John Philip Newell — co-hosted by Stillpoint Center for Spiritual Development (NV), Stillpoint (CA), and Stillpoint Center at Beckside (WA).
