Dear Sir or Madam,

I am writing to you regarding Allison (Allie) Hephner. I have known Allie since December of 2017 when I began working as a consultant for the Navajo County Public Health Services District (NCPHSD). Allie and I worked together leading a community group through creating a health assessment and a health improvement plan over the course of a one-year period. This was a tall order, but Allie and the team completed it in eleven months.

Allie has a number of strengths that she brings to the workplace. One of the most effective is her ability to connect with others across the community. She is well-versed on events and organizations in Navajo County and likely individuals involved with all of them. She brings enthusiasm to all she does, which brings people on board with her projects. She is also intellectually curious and willing to learn any and all skills that contribute to the organization's success.

I believe that Allie would be an asset to your team. I have no reservations about working with her again in the future, and, in fact, I hope I have the opportunity to do so. If you would like to speak to me further or have an email exchange, please contact me at the phone or email above.

Sincerely and enthusiastically,

*Mare Schumacher*
