5. Discuss Project Inventory Tool

13

Project Inventory List

The inventory is a living document which can be continually updated as projects or plans are conceived.

Compiling the inventory will guide development of our **regional priorities**, understanding of how projects and activities might **relate or interact** with one another and help us **find additional funding sources**.

The RSC will adopt a preliminary project inventory list to submit by October 31, 2020.

Project Inventory Survey Form

<https://arq.is/11Kb09>

What can be submitted: Any watershed-related project or plan in any stage. Including: ideas, those already under construction, and any projects that have been constructed in the last two years.

Who can submit: Anyone

Note: The submission of a project does not mean that it will be funded, and the submission **is not** the same as a formal submission for funding.
