HOUSE OF MARBLES

We have been designing, making and selling fun and entertaining products since 1973, when our founder began making board games in his workshop to sell at local craft fairs. Since then, we have grown to become one of the foremost suppliers of traditional toys and games in the UK and have offices, warehouses and customers all over the world.

Our range has grown enormously over the years and now includes a huge variety of children's products including collectables, novelties, fun books and educational kits as well as the toys and games for which we are so well known. There is plenty for grown-ups too – from executive games and puzzles to decorative and quirky gifts for the home or garden.

Everything we supply must meet our high standards of quality, value and entertainment. As a company, we are committed to making positive changes to lessen our impact on the environment around us. We are actively working to eliminate single-use plastic in all our packaging and to use responsibly-sourced wood in our toys and games wherever possible, as well as making many small changes in the way we do business. You can view our full environmental statement on our website.

We work from an 18th century building on the edge of Dartmoor in Devon with an award-winning design and dedicated production team. Our sales teams in the UK, USA and Australia are always ready to provide first-class and friendly support and advice to all our customers. If you would like further information about any of our products, please don't hesitate to give us a call, visit us at a trade show or showroom or ask for an appointment with a sales agent. You can also browse our range and place orders online through our easy-to-use, secure website. For full and secure access, just register at:
