

## FALL HUNTING EQUIPMENT LIST

### **Special Considerations:**

Temperature may range between 85 degrees during the day to -0 degrees at night. Layering your clothing is the best way to deal with such a wide range of temperatures. Footgear should be well broken in, comfortable to wear, above the ankle and waterproof. Be prepared to spend the majority of each day in the elements.

### **Sleeping Equipment:**

Sleeping bag: rated to at least - 0 degrees – most bag temperature ratings are overly generous  
Optional blanket liner for extra warmth and cleanliness  
Sleeping pad and pillow

### **Foot Gear:**

Comfortable hiking or hunting boots – rubber bob or other non-skid sole  
Insulated winter boots if hunting general season  
Tennis shoes or slip on shoes for around camp

### **Clothing List:**

Waterproof duffel bag with side zipper is best, several pairs of heavy socks, several pairs of light socks, a few pairs of long johns, underwear, sweat suit or other sleeping gear, two changes of pants and shirts, a down, fleece, or wool vest for layering, coat, winter hat, several pairs of light and heavy gloves, neckerchiefs, rain gear, orange vest WE RECOMMEND WOOL CLOTHING, REMEMBER YOUR CLOTHING NEEDS TO BE QUIET!!

### **Hunting Equipment:**

Rifle sighted at 200 yards, ammunition, quiet lumbar type fanny pack or daypack (full sized packs are difficult to use on horseback), hunting knife, binoculars, G.P.S. (optional), range finder (optional), 400sq inch blaze orange vest, HUNTING LICENSE!

### **Personal:**

Cell phone and charging cord (extremely limited cell service, but nice for pictures), Camera, extra film or batteries, wash cloth, towel, extra prescription glasses and sunglasses, headlamp or flash light with batteries, tooth paste and tooth brush, shampoo and conditioner, fingernail clippers, water bottle with water filter, pocket knife, comb, brush, sunscreen, mosquito repellent, chap stick, prescription medications, minor first aid supplies
