

# GOLDEN GLOVES ACADEMY

The position of goalkeeper is a vector of values that contributes to the sporting and human development of the child.

Our academy aims to lead the young goalkeeper to create his/her difference by drawing confidence from his ability to regularly make efforts in order to achieve his/her objectives and his/her best technical and tactical level.

In order to ensure the success of young goalkeepers, our academy has been based above all on respect, listening, commitment and support.

This program is open to all motivated goalkeepers, regardless of their technical level, who wish to develop.

Our focus has remained the same for the past 12 years, to allow our youth to realize their full potential on the field, combining training with the pleasure of playing soccer, and particularly playing as goalkeepers, under the supervision of a coach with professional experience.

Qualities developed:

## Physical qualities

Reaction speed, coordination of movements, agility-mobility and explosive strength.

## Technical qualities

Ball catching/handling, dives, deviations, high balls, distribution, footwork and 1 on 1 interventions.

## Tactical qualities

Closing angles, anticipating, positioning on standard situations, positioning the barrier (wall) and direction of the defensive line.

## Psychological qualities

Concentration, courage and emotional management.

Coach:

Tayeb Djebbari, Director of Goalkeeper Development.
