

## Third Year

### 1st Quarter

**Old Testament Geography** leads the Bible student to associate Old Testament events with geographical locations. One of the best ways to represent the unity, truth, and life of the Scriptures is by an understanding of the actual places where many historical events took place. Contained in this quarter is not only a geographical study, but a study of important Bible events and characters.

### 2nd Quarter

**New Testament Geography**, in like manner, directs a geographical study of the New Testament similar to study of Old Testament geography.

### 3rd Quarter

**The Miracles Of The Bible** helps one to define the difference between miracles and the providence of God. The Bible student will learn that God still works, but in a different manner than that of the New Testament time period. This quarter covers most of the miracles in the Old and New Testament as well as showing the cessation of miracles.

### 4th Quarter

**God's Plan For The Home** begins at Eden and discusses all vital aspects of the home. The Bible student will learn the duties of parents, husbands, wives and children. Also taught are here are guidelines for youth, marriage, and divorce, and how to have a successful marriage.
