

**St. Augustine - “Question the beauty of the Earth, question the beauty of the sea, question the beauty of the air, question the beauty of the sky, question the stars, question the sun making the day glorious with it’s bright beams, question the moon tempering the darkness of the night with it’s shining rays, question the animals that move in the waters, that amble around on dry land, that fly in the air, their souls hidden, their bodies evident. Question all these things, they all answer you: here we are, look, we are beautiful. Their beauty is their confession. Who made these beautiful, changeable things, if not one who is beautiful and unchangeable?”**
