SYV School Board Meetings

Click HERE to access our website where information for all Valley School boards are in ONE PLACE

All 6 school districts in the Santa Ynez Valley have their own school board and each make decisions based on the best interest of our kids BUT they often times do not have control over decisions that are made at the Sate or Federal level.

Below are a two examples.

It is critical that we all stay informed and engaged!

STATE

AB 1955 is a serious and direct attack on parental rights in California. It will prohibit ALL school employees or contracted individuals from being required to notify parents of any information regarding their child's gender identity or sexual orientation. The bill also declares any parental notification policy that a school board has passed to be invalid.

Tell Gavin Newsom to VETO AB 1955 - it will take less than 2 minutes.

FEDERAL

Title IX Update

President Joe Biden's unconstitutional revision of Title IX takes effect on August 1 and will have important consequences for free speech, girls' sports, and other details of student's everyday lives during the school day.

Curious about how these changes to Title IX will affect your student? [Watch Parents Defending Education's Title IX explainer.](#)

From Joan Hartmann's summer newsletter:

Roadside and Sidewalk Food Vending Information

Many are asking:

How can they do this while others have to follow the law
and pay rent?

"Roadside and Sidewalk Food Vending: Health and Safety Information

Food vending has been a difficult (and hot topic) in many of the incorporated cities in the County. There are two recent State laws that have added some confusion surrounding what can/cannot be required by a city, and when a County health permit is required.

SB 946 (Sidewalk Vendors) This law largely allows sidewalk vendors to operate anywhere on public rights-of-ways within a city (selling food or merchandise) unless the local jurisdiction has adopted specific local rules regulating the time, place, and manner of sidewalk vending. A city may require a sidewalk vendor to obtain a city business license or vending permit with a local vending ordinance. For examples, the Cities of Solvang, Santa Maria, and Santa Barbara have adopted sidewalk vending ordinances.

SB 972 (Compact Mobile Food Carts / State Retail Food Code)

This law, among other things, exempts certain sidewalk food vending from needing a health permit from the County Environmental Health Services (EHS). For instance, a cart, table, or stand is exempt from a health permit if the sidewalk vendor is selling only pre-packaged food or whole, uncut produce. This exemption would allow vendors selling strawberries, avocados, pre-packaged snacks/drinks or popsicles to do so without a County health permit, for example.

Road-side carts that are selling cut fruit may be eligible for a health permit from County EHS to operate, but many of these are dropped off by out-of-area vendors and they do not have the requisite health permit or hand washing facilities that are required.

Complaints are welcomed by the public at County EHS by email at phdehsweb@sbcphd.org or by telephone at 805-681-4900 (press #3 to reach the front desk).

Other "pop-up" food vendors that are cooking outside in either a public or private parking lot (i.e. taco stand or barbeque) or that are selling potentially hazardous foods (i.e. canastas or tamales) from a cooler are NOT eligible to obtain a health permit (unless at a sanctioned event such as a fair or non-profit fundraiser) due to the increased health and safety risks. Additionally, open flames are never allowed. County EHS would appreciate any information to follow up on these as appropriate to protect public health."

It should alarm every American citizen that the sitting President of the United States, who has opened our border to over 9 million illegals, just announced that he would veto our bill to prevent noncitizens from voting.

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

July 8, 2024
(House Rules)

STATEMENT OF ADMINISTRATION POLICY
H.R. 8281 – Safeguard American Voter Eligibility Act
(Rep. Roy, R-TX, and 104 cosponsors)

The Administration strongly opposes H.R. 8281, the Safeguard American Voter Eligibility Act. It is already illegal for noncitizens to vote in Federal elections—it is a Federal crime punishable by prison and fines. The alleged justification for this bill is based on easily disproven falsehoods. Additionally, making a false claim of citizenship or unlawfully voting in an election is punishable by removal from the United States and a permanent bar to admission. States already have effective safeguards in place to verify voters’ eligibility and maintain the accuracy of voter rolls. This bill would do nothing to safeguard our elections, but it would make it much harder for all eligible Americans to register to vote and increase the risk that eligible voters are purged from voter rolls. The evidence is clear that the current laws to prevent noncitizen voting are working as intended—it is extraordinarily rare for noncitizens to break the law by voting in Federal elections.

The President has been clear: he will continue fighting to protect Americans’ sacred right to vote in free, fair, and secure elections, including by calling on Congress to pass the John R. Lewis Voting Rights Advancement Act and the Freedom to Vote Act. If House Republicans really want to do something about securing our border and fixing our broken immigration system, they should vote on the border deal that the President negotiated with a bipartisan group of Senators—this would provide immigration officials the resources they need to do their jobs and be the toughest and fairest set of reforms to secure the border that we have seen in decades.

Autopsies Link 73.9% of Post-Job Deaths to the Shot

NEW ARTICLE FROM DR. MAKIS:
IVERMECTIN - Articles and Protocols for CANCER, Research studies and access to Ivermectin pills

Recently, I have seen tremendous demand for some sort of initial guidance “WHERE TO START” with High Dose Ivermectin for CANCER.

So I'm reposting my Ivermectin Cancer Protocol.
It's very simple to use.

Did you know that Ivermectin is annually taken by close to 250 million people?

Ivermectin has a dozen anti-cancer mechanisms but they can be summarized into two main ones:

1. Inhibits cancer proliferation signaling pathways (Akt, mTOR, Wnt)
2. Inhibits Cancer Stem Cells

IVERMECTIN will act against regular CANCER as well as Pfizer and Moderna COVID-19 mRNA Vaccine Induced TURBO CANCER (which is highly resistant to chemo)

Here are recent studies on IVERMECTIN use in certain types of cancer:

BLADDER CANCER - (2024 Fan et al) - Ivermectin Inhibits Bladder Cancer Cell Growth and Induces Oxidative Stress and DNA Damage

LUNG CANCER - (2024 Man-Yuan Li et al) - Ivermectin induces nonprotective autophagy by downregulating PAK1 and apoptosis in lung adenocarcinoma cells

GLIOMA - (2024 Xing Hu et al) - Ivermectin as a potential therapeutic strategy for glioma

MULTIPLE MYELOMA - (2024 Yang Song et al) - Gene signatures to therapeutics: Assessing the potential of ivermectin against t(4;14)

multiple myeloma

OVARIAN CANCER - (2023 Jawad et al) - Ivermectin augments the anti-cancer activity of pitavastatin in ovarian cancer cells

PROSTATE CANCER - (2022 Lu et al) - Integrated analysis reveals FOXA1 and Ku70/Ku80 as targets of ivermectin in prostate cancer

COLON CANCER - (2022, Alghamdi et al) - Efficacy of ivermectin against colon cancer induced by dimethylhydrazine in male wistar rats

PANCREATIC CANCER - (2022 Lee et al) - Ivermectin and gemcitabine combination treatment induces apoptosis of pancreatic cancer cells via mitochondrial dysfunction

MELANOMA - (2022 Zhang et al) - Drug repurposing of ivermectin abrogates neutrophil extracellular traps and prevents melanoma metastasis

IVERMECTIN has proven anti-cancer activity against some 20 cancer types, although these are pre-clinical studies. We will never see clinical studies because Ivermectin is off patent and cheap.

Merck, which used to have a patent on Ivermectin, has partnered with Moderna on mRNA Cancer Vaccines.

IVERMECTIN is so safe, that in much of the civilized world, it is available over the counter, no prescription needed. That's how it should be.
