The experience:

The eight day workshop journey includes:

- Workshops will include the pedagogy of acting through song
- Monologue Selection and Performance
- Understanding College Programs: Looking at the alumni, faculty, course selection, pictures, and asking how do I fit into this picture?
- How to handle callbacks and Interview skills
- Mastering the dance call for dancers and actors that move
- Vocal lessons/individual and group sessions with feedback for vocals, monologues, and dance

Taking Flight:

After your 8-day workshop experience, we will travel together to Bloomington, Indiana for the International Thespian Festival where you will experience college life for 5 days / 5 nights while immersing yourself into interactive workshops and learn about front, back and on stage life. You will experience student works, improv, one-acts, read-throughs, and main stage performances from all over the country. Meet with BFA programs, as well as attend your call-back auditions at ITF.
