

Calvert Street Bridge

Original Name: Calvert Street Bridge

Address: Calvert Street at Woodley Place, NW
(east of Connecticut Avenue)
Washington, DC
(Woodley Park Neighborhood)

Architect(s): Paul Philippe Cret

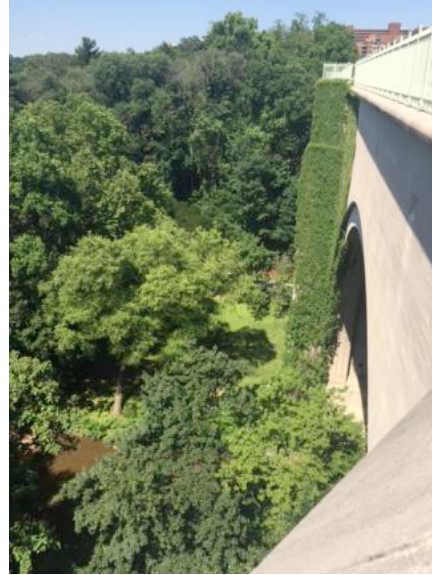

Year of Construction: 1935

Current Status: Other

Original Use: Other

The Duke Ellington Memorial Bridge is a bold massive structure of concrete arches faced with limestone, but the real fun is the sculptures on the pylons flanking the Calvert Street entrances depicting Art Deco gods & goddesses of transportation by sculptor Leon Hermant. Many consider the finest of the four to be the one described in Washington Deco as a “thoroughly Wagnerian goddess of speed, racing a streamlined car.”
