

Board Member: Vickie

Vickie was married 46 years in August! She has three children, all grown. She said her middle child (a son) almost didn't make it. I am sure all of you with a son - understand her comment!

She started sewing in High School Home Economics. She said she learn to use a seam ripper while putting a zipper in that first dress.

Vickie's Mother was a seamster and Vickie was her helper. She grew proficient with the seam ripper and in between projects – played with her mother's button box. Upon graduation from High School – she received her very first Singer sewing machine.

As an adult, she made clothing for her family and then when a Girl Scout project and the Morrow County Quilt Guild started Snuggled In Hope Quilts (2012) – how could she NOT join and help?

Vickie still loves the Snuggled mission and loves that she is helping children
