

# HELPFUL PHONE APPS

## IAUDITOR

iAuditor is an intuitive checklist application that allows users to create or customize their own checklists, generate comprehensive reports, and perform regular inspections using a tablet or mobile device.

## NOTIFY IM

Designed to drive immediate safety improvements through smart technology, Notify IM boasts simple incident reporting, dynamic action tracking and an intuitive dashboard, helping Health and Safety professionals to collect, analyze and utilize data generated through incident reports, and gain a better understanding of Health and Safety across the organization.

## SAFETY JSA APP

Determine and establish proper work procedures. Employers use JSAs to eliminate and prevent hazards in their workplaces which can lead to fewer worker injuries and illnesses. The JSA can also be a valuable tool for training new employees in the steps required to perform their jobs safely.
