HELPFUL PHONE APPS

HAZARD SCOUT

Hazard Scout allows for streamlined reporting. Managers write reports, add pictures and videos, and take notes while in the field. Help resolve past and present issues and avoid future violations and obstructions to workflow. Get trends, graphs, and summary reports.

WORKSAFE.AI MOBILE

AI-powered solutions ensure safety compliance to foster incident free work environment and rapid risk mitigation.

SAFETY OBS APP

The Safety Reports Observation App allows employees to quickly and easily record "one-off" safety observations, both positive and negative, using their smartphone, tablet or computer. Using this app will help employees become more engaged in safety!
