

HELPFUL APPS

SAFETEAM WEB APP

ZALEMO has developed safety management software and created a state-of-the-art application to help employers in any industry measure their safety performance, training needs, and even project manhours.

STAY SAFE

This intuitive app allows employees to check in safely following a lone working session and raise an alert in an emergency.

SAFETYLINE

Workers can check in, signal an emergency, use motion features like man-down and fall detection, discreetly alert for panic emergencies, and even connect with satellite devices if they're out of cell service range. With SafetyLine, you can ensure the safety of your lone workers.
