Video Requirements

Video Submission

Videos must be submitted through the portal by 11:59 EST on June 1. Any videos after that date will be disqualified and no refunds will be given.

Poles

Athletes must perform on two poles, one static and spin. Chrome, stainless steel, or brass finishes are accepted. Use of “stage poles” is accepted if they meet the other requirements.

If possible it would be preferred for athletes to use the correct set-up of two 12 foot poles that are approximately 9 feet apart with static on stage right and spin on stage left. However, with limited travel capabilities, we realize this may not be possible for everyone. Athlete will not be deducted if correct height of poles or distance between poles is not able to be used.

Lighting

The performance should be well lit to allow for proper judging of the video. Lighting changes are not allowed during the video.

View

The athlete and their entire body must be visible for the entire judged performance. The camera must be placed so as to give as “straight on” view of the performance area. Athlete may lose points if the camera is put at the side of the room or at an angle and the judges cannot accurately judge presentation angles of moves. The camera must be stationary for the entire performance.

Additional Video Requirements

Athletes are allowed to record as many times as they would like to get the run-through that is the best. However, you cannot edit or splice videos together. Submissions must be of one continuous video.

Failure to Comply

At the sole discretion of the head judge, a 3 point penalty may be incurred if the video requirements are not met. In addition, at the sole discretion of the head judge, the head judge may deem a video disqualified if failure to comply with video guidelines make it so the video is not able to be judged fairly. In this case the head judge may also make the decision to not have the video aired in the online competition stream.
