Please be prepared to defend this concept with the USPSF Ethics Committee.

Video Requirements for Virtual Competitions

Videos must be submitted on time. Any videos after the specified date will be disqualified and no refunds will be given.

All submitted videos will be part of an online competition stream after judging has occurred.

Poles

- Athletes must perform on two poles, one static and one spin.
- Chrome, stainless steel, or brass finishes are accepted.
- Use of “stage poles” is accepted if they meet the other requirements.
- If possible, it would be preferred for athletes to use the correct set-up of two 12-foot poles that are approximately 9 feet apart with static on stage right and spin on stage left (from the performer's point of view, facing the audience). However, we realize this may not be possible for everyone. The athlete will not be deducted if the correct height of poles or distance between poles cannot be used.

Aerial

- No rigging from trees.
- All competitors must perform with a safety mat.

Lighting and Background

- The performance should be well-lit to allow for proper judging of the video.
- Lighting changes are not allowed during the video.
- Please make sure there is no other movement in the background (e.g. Roombas)

Video Requirements

- The athlete and their entire body must be visible for the entire judged performance.
- Please film your video in the horizontal plane.
- The camera must be placed to give a “straight-on” view of the performance area. The athlete may lose points if the camera is put at the side of the room or an angle and the judges cannot accurately judge presentation angles of moves.
- The camera must be stationary for the entire performance and may not be zoomed in or out. Please make sure any potential zooming effect/focus settings are turned off.

- Routine must be recorded specifically for the competition. Videos from previous competitions or live performance events will not be accepted. While we understand filming a routine in the studio is better with an audience, the audience must remain quiet (no cheering and clapping until recording has stopped).

Video Editing

- Athletes are allowed to record as many times as they would like to get the run-through that is the best. However, you cannot edit or splice videos together.
- Submissions must be of one continuous video.
- Overlaying music on top of the video is not allowed.
- Please ensure that the video is recorded in 1080p (1920 x 1080), as this is considered HD and will ensure the best video quality.
- Video must be submitted in .mov or .mp4 format.
- Please name your video file as follows: Name - Competition – Division – Age Category. For example, Jane Doe – Pole Art – Amateur – Masters 40+Women

Potential Deductions for Video Submissions

	Deductions

Failure to Comply

- At the sole discretion of the Head Judge, penalties may be incurred if the video requirements are not met.
- At the sole discretion of the Head Judge, the Head Judge may deem a video disqualified if failure to comply with video guidelines makes it so the video is not able to be judged fairly. In this case, the Head Judge may also decide to not have the video aired in the online competition stream.

Photography & Video

All athletes confirm by taking part in USPSF events that they waive all image rights and will not receive any compensation for photos and videos taken during the event.

All photo/video material will remain the property of the USPSF, and contestants explicitly agree that all footage and photos can be used by USPSF for promotional, advertising, and commercial purposes indefinitely.

All athletes agree to be interviewed, filmed, and or photographed by the media.

Judging

The competitor with the highest number of points will win 1st place, with 2nd and 3rd place awarded in descending order.

The USPSF reserves the right to not broadcast or share any routine if they feel the competitor is showing a health or safety concern or has violated any rules or regulations listed above.

The decision of the judges is final.
