

Carlsbad Republican Women Federated has had a long history of supporting women leaders and promoting the Republican Party!

We encourage our members to become informed on issues and candidates through general meeting speakers, attendance at local caucus meetings, working on campaigns, and personal research.

Cultivating informed, persuasive Republican Women is one of our contributions and a formative tool towards electing Republicans in our county, state, and country!

Our club is active in promoting education through our literacy and library projects, providing assistance to local charities through Caring For America, and reaching out to those in need in our community.

Why you should join:

- To promote a more effective voice in local, state and national issues.
- To listen to and meet candidates and elected officials.
- To develop leadership and campaign skills.
- To participate fully in the political process.
