RISE UP CHURCH

When God (Jehovah, Jesus, Holy Spirit) is kicked out of society and its' governing bodies, there are consequences. We are seeing that now throughout our country. People in other countries are also joining voices, protests, and demonstrations, in support of those causing disturbance in our land; they are coming against America.

Many people here no longer believe in God or the bible as a result of the liberal leftist education system of the last fifty years. Many of these have now joined with groups demanding radical change with the goal of bringing down our entire government, society, and economy. Satan must be very pleased.

Who are these groups and what is their agenda? The Black Lives Matter (BLM) movement is at the forefront, aided by Antifa (Anti Fascism) and the Center for American and Islamic Relations (C.A.I.R.). These three together wish to take America down, although each one has its' own agenda.

The goal of C.A.I.R. is to destroy enough of the "American system" to put in place their Sharia Law, a very harsh and antiquated legal system that Islam derives from Old Testament law and the Ancient code of Hammurabi, dating back to the 18th century.

The goal of Antifa is to cause rioting leading to anarchy so as to destroy our government and bring in socialism, which ironically leads to fascism, the very thing they claim to be fighting. (They claim our present government is fascist.) Guess what? Socialism brings fascism which leads to communism, an advanced form of socialism.

The BLM movement might have begun with the idea of valuing black lives, but it has developed now into something far more sinister. It has become a Crow Jim movement. (Look it up in your dictionary.) Crow Jimism is reverse discrimination at its' worst; it is specifically anti-white racism. BLM leaders not only lead these three groups together to destroy all historical monuments and change or re-write our history, but some have made even more radical demands.

What other demands? One is to destroy any image of Jesus that appears to look like a white man. They want a black Jesus. They have said that if a white person sells their house, all proceeds from the sale should be given to a black family (a means of reparation). They say their people should only purchase goods from black-owned businesses and never from a white-owned business. They have become Crow Jim's (the opposite of Jim Crow).

What is our remedy? Only the love of God and the peace (inner peace) of Jesus can truly overcome this. **National repentance** is badly needed for offering over 61 million of our children on the altars of Baál (abortion), and for government promotion of the entire LGBTQ agenda,

and for using public education to promote the godless agenda of humanism (where man is seen to be his own god.).

Is it too late to “turn the tide” back to God? Perhaps it is, and greater judgement will come. Nevertheless, we cannot give up the “good fight of faith.” We must pray like never before. We need to get out of our house and get into the public areas (stores, parks, streets., etc.) where we can proclaim the gospel, and meet up with other like-minded Christians. It will not happen behind church walls. We must take Jesus into the streets, into the Highways and byways. It is time to RISE UP, CHURCH!
