PREPARING

As I was reading the scriptures today the Lord impressed upon me some things. One of them was about the gasoline pipeline that has been shut down. I have seen some say that this is the work of Russia, but I believe that may not be true. I believe that those that are seeking the One World Government, including our current administration, will do anything to take America down. Their plan is to make America and the rest of the world dependent upon them.

Through a source I have learned that today there is no gas available in certain areas of North Carolina. There is a shortage of many things in that area, including some food items. A friend in Ohio said there was no gas other than premium available. A friend locally told me that the price of a 2x4 went from \$1.99 to \$10 in the past few weeks. This inflation will affect the building industry and more. This shutdown and other things will affect our entire country and eventually the world.

We saw how a "plague" has shut down the world and brought in a vaccination that has not been tested. A friend that worked at a major manufacturer of vaccines for 17 years told me recently that she has learned what has been put into these "covid vaccines" and would never take the vaccine herself.

Why am I sharing all of this "gloom and doom"? We need to wake up and be prepared for what is coming together. We must spend time studying scriptures and praying. We must prepare in the spiritual but also the natural. Just like Joseph was sent to Egypt for a specific purpose and that was to save nations from starvation, we have been raised up for such a time as this. We need to get our "houses" in order. We need to repent of hidden sin and be right with God. This is not a game that is going on. This is the end time scenario prophesied in the Bible. It is no longer a futuristic happening. It is happening now.

Don't put your head in the sand and think everything is going to get better. It isn't. It is going to go downhill. I pray you have prepared yourself for the things that are coming. Getting food will be a problem. I pray you have faith to have some things stored up and ask God to multiply it like he did the loaves and the fishes.

Don't be deceived! Be prepared and help others prepare. Be a Joseph to those that need help. At the same time, with the fear that this lack of food and oil produces in individuals, it is our opportunity to share Christ with everyone we know. Don't sit and worry, because that is fruitless. Use these days to be light in darkness and bring others into the kingdom.

I have been telling people to prepare for almost 20 years. God never does anything without revealing it to his prophets. He revealed it to me way back there. I pray you take heed and listen to His plan for you too!
