Introduction:

Occult symbols are fast replacing Christian symbols in our culture. Therefore, we encourage you to use this list to warn others, especially Christian children who intentionally wear and display them because they are popular.

Keep in mind that **many of these symbols have double or multiple meanings**. For example, the pentagram has been used to transmit occult power in all kinds of rituals for centuries, but to Christians the same shape may simply represent a star -- a special part of God's creation. The image of a fish may mean a sign of the zodiac (astrology) to some, but to Christians it has meant following Jesus and sharing the message of His love. We will continue to delight in the cross, while recognizing that others use the same image to represent their dark forces.

YIN AND YANG

It's everywhere. The classic yin-yang symbol, seen more and more these days, is a circular symbol, half-black and half-white, with a small dot of white on the black side, and a small black dot on the white side. This symbol is called the Tai Chi Tu. The term "yin-yang" is drifting into popular speech also, usually along such lines as, "Well, everything has its yin and yang side," and many believe this symbol represents balance, peace or harmony. Others believe that it means there is a little bad in the good, and a little good in the bad (which would mean there is no absolute good or evil).

What does Yin-Yang Really Mean?

Origins of Yin-yang became associated with Taoism, a religion widespread in China several hundred years before Christ's incarnation on earth. In Taoism, the Tao, loosely translated as "the Way" or "the Path", is the origin of all things and the ultimate reality. As is true in many Eastern religions, this concept is not to be grasped intellectually since it describes a reality beyond the intellect. Therefore, according to Taoist teachings, the truth of the Tao can only be understood indirectly or through a process of enlightened living. Happiness is gained by living in the flow of the Tao, which is the flow of the universe. This belief has no personal God. Where do the yin and yang come in? "Through the dynamics of yin and yang, the female and male cosmic principles, the Tao creates all phenomena. Whereas the Tao is perfectly harmonious, the cosmos is in a state of constant disequilibrium " (Spirituality by The Numbers, Georg Feuerstein, p. 146).

Yin & Yang

The forces of yin-yang arise from a belief in dualism, a state in which the universe is seemingly equally divided into two opposing but equal forces. The dualistic world of yin-yang, however, is not seen as good versus bad. It is divided along other lines. Yang, represented by the white in the yin-yang symbol, stands for the creative principle, while yin, represented by black, is dissolution and return (to creation). Yang came to represent hot, dry, male, light, hardness, movement and initiative. Yin symbolizes coolness, moistness, female, darkness, softness, stillness and receptivity. The yin and yang forces are believed to be cyclical, moving and evolving into each other, represented by the white dot on the black yin side of the symbol, and by the black dot on the white yang side. In this view, the universe depends on the interaction between these two forces which arise from the Tao. Yin and yang also became a part of the I Ching, a form of divination. These values extend to a classification of foods, organs in the body, plants, etc. as either yin or yang. The macrobiotic diet, first popular in the late sixties and the seventies, is based on the division of food into their yin and yang properties. The way to be content is to balance between these two forces and thus find harmony in the Tao. If the yin-yang forces in the body get unbalanced, then illness results.

No Good or Bad?

There is really no good or bad according to the Taoist/yin-yang view, only what appears to be good or bad. There is no life and death because "Life and death are one, right and wrong are the same," (from the Chuang Tzu as quoted in World Religions, Geoffrey Parrinder, p. 333). In this view, opposites are not really opposite; they just appear that way to us because we perceive through a dualistic conditioning and cannot see how opposites are really part of the whole. Opposites actually contain the essence of each other, and eventually merge with each other. This is one of the origins of the holistic view of the world and of the body, and remains the basis today of the body-mind connection. The universe is seen as mystically connected and interplaying, including every person, animal, rock, tree, river, etc., through the yin-yang interaction. Referring to the Tao, Wen-Tzu states that "the Way has no front or back, no left or right: all things are mysteriously the same, with no right and no wrong," (Wen-Tzu, Further Teachings of Lao-Tzu [Boston: Shambhala, 1992], 109).

Holism

Many people mistakenly accept the body-mind connection of holism because we know that our attitudes often affect our health or recovery from illness. However, attitudes and the contemporary mystical holistic view are two separate things. The holistic view of the body and of health is based in monism, that all is one and one is all, and that a universal force (referred to as chi or qi) connects us and flows through the body. Holism today assumes that all illness is an imbalance of or blockage of the chi and/or the yin-yang forces in the body, and thus the state of one's health is a reflection of this energy/spiritual imbalance or blockage.

Acupuncture

Most holistic healers believe that illness is a spiritual condition, and they use methods based in occultism and Eastern religious views. Acupuncture originates in the belief that the yin-yang forces flow along invisible pathways in the body called meridians, and that illness results from an imbalance in these forces, or the blockage of these forces. Inserting the needles at certain points is supposed to allow a balanced flow of the body's yin and yang energies. Although there are theories that acupuncture works either because the placement of the needles sends signals to the brain which release endorphins or because the needles block a pain signal to the brain, these theories have not been proven. Even if these theories prove correct, then the conclusion would be that it is not acupuncture that is working, since acupuncture is based on the idea that relief is coming from the flowing of chi and balancing of yin and yang. What would be working is relief of pain through endorphins and the blockage of pain signals. This is not the theory of traditional acupuncture. This relief would have nothing to do with chi, meridians, or yin and yang, but rather with biology and a proper understanding of the body. At best, acupuncture relieves limited amounts of pain temporarily. No physical or medical model exists yet to explain acupuncture.

Evil is Not a Force

If opposites are always merging into and becoming each other, then there is no absolute good or evil. However, in **John 1:5**, it states, ***"This is the message we have heard from him and declare to you: God is light; in him there is no darkness at all."*** Evil is not a force; it is a rejection of or rebellion against the good. Evil is the work of Satan, who has no truth in him (**John 8:44**), and those who choose to deny or reject God. Evil and good are not equal because God is sovereign and "The reason the Son of God appeared was to destroy the devil's work," (**John 3:8**). God allows Satan to operate for now; but Satan was defeated when Jesus died for us on the cross, allowing deliverance from Satan's power through trusting Christ (For he has rescued us from the dominion of darkness and brought us into the kingdom of the Son he loves, in whom we have redemption, the forgiveness of sins, **Colossians 1:13,14**). Satan will be thrown into the lake of fire (**Rev. 20:10**).

Qi

Tai Chi, often called a "moving meditation," is based in Taoism. One of the purposes of Tai Chi is to facilitate "the flow of qi through the body," (Harper's Encyclopedia of Mystical & Paranormal Experience, Rosemary Ellen Guiley, p. 599). The qi (also spelled chi, ki or ji) is an Eastern name for the universal energy supposedly flowing through the body. A fact sheet on the meaning of the 108 moves in Tai Chi, put out by the Taoist Tai Chi Society in the U.S., states that the 36 major and minor yang channels in the body are the "Celestial Deities" while the yin elements in the body are the "72 Terrestrial Deities."

The combined total is 108, a "number divined by Chang San Feng himself" (Chang, an 11th century Taoist monk, is considered the founder of Tai Chi). The statement goes on to say that "the full 108 symbolizes the harmonious balance of yin and yang and therefore lead to health. The union of all yin and yang elements represent the return to the holistic and undifferentiated state of the Tao." The term undifferentiated means there are no distinctions; all is one.

The Christian Response

Christians should be discerning about practices such as acupuncture that have as yet no medical basis and "exercises" like Tai Chi that are designed based on spiritual beliefs hostile to Christ's claim to be the way, the truth, and the life (John 14:6). The fact that such a treatment may work is not a good enough reason for using it. Many things in the occult and mystical world seem to work. The standard for Christians in adopting a spiritually based idea or practice is not whether it works. We are admonished to "**not believe every spirit but test the spirits to see whether they are from God...**" (1 John 4:1a). These words should be taken to heart, in regards to many other holistic and alternative treatments as well. The Tao claims to be the way but offers an undifferentiated whole where there are ultimately no distinctions between yin and yang, or between good and evil. Harmony is based on balancing yin and yang. However, true peace comes only through trusting Christ (John 14:27; Philippians 4:7). There is a Person, Jesus, not a principle or a philosophy, who said, He is the Way" (John 14:6), the Way to God and to eternal life (John 5:24; 6:40).

Please don't pass judgment on those who happen to wear these symbols. Instead, let us seek God's will and discernment so that we might all honor Him with our lives. Remember, "**each of us shall give account of himself to God. Therefore let us not judge one another anymore, but rather resolve this, not to put a stumbling block. . . in our brother's way.**" (Romans 14:12-13).

	<p>ALL-SEEING EYE: A universal symbol representing spiritual sight, inner vision, higher knowledge, insight into occult mysteries. Look at your \$1 bill.</p> <p>EYE in top Triangle of the PYRAMID: Masonic symbol for the all-seeing eye of god - a mystical distortion of the omniscient (all-knowing) Biblical God. You can find it on the \$1 bill. See triangle, Eye of Horus, the Franklin Institute website, and the symbol for the U.S. government's new Total Information Awareness (TIA) System. See also The Revolutionary Roots of the UN</p>
	<p>ALCHEMY 1: This simple 17th century "sign" illustrates the blending of geometric shapes, elemental symbols and astrological signs. Each part representing the various "elements" and forces needed for magical work in the quest for physical transformation and spiritual illumination and immortality. Many medieval alchemists based their philosophies on mystical traditions rooted in the Kabbala (Jewish mysticism), Hermetic magic and the occult practices of ancient civilizations such as Egypt and China. See Philosopher's stone and phoenix. Compare it with the next symbol:</p>
	<p>ALCHEMY 2: This compound "magical-alchemical symbol" replaces the above triangle with a hexagram and adds more shapes within the magical circle: a cross [in this context it becomes an occult counterfeit] and an additional circle with the Hindu "Bindu" (dot in the center) at the bottom of the hexagram.</p>
	<p>AMULET: A magic charm (such as this little Navajo bear earring), worn to bring good luck and protection against illness, accidents and evil forces. Don't believe it! [See Establishing a Global Spirituality]</p>
	<p>ANARCHY: Popular among school aged children today, this symbol for anarchy fits the message that pervades the most popular video games, role-playing games, movies and television. The lines of the "A" often extend outside the circle. To many satanists and other fast-growing occult groups it represents their slogan, "do what thou wilt." A former occultist explained that it represents the ASMODEAS: a demonic force driving teenagers toward sexual perversion and suicide.</p>
	<p>ANKH: An Egyptian cross symbolizing a mythical eternal life, rebirth, and the life-giving power of the sun.</p>
	<p>ANGEL: Symbol of good and evil spirits in religions around the world. This picture shows a Tibetan guardian angel. For a comparison between Biblical angels and occult angels read Chapter 8 in <i>A Twist of Faith</i>. For a summary, see Touched by an Angel.</p>

	<p>ARROW: These two pictures shows the astrological sign for the archer (Sagittarius) -- part of the zodiac. But, through history, the arrow has also symbolized war, power, swiftness, the rays of the sun, knowledge... as well as deities such as the Greek god <i>Apollo</i> and goddess <i>Artemis</i> (both hunters), the Hindu weather god, <i>Rudra</i>; and various gods of sexual attraction: <i>Eros</i> (Greek), <i>Cupid</i> (Roman), <i>Kama</i> (Hindu).... On ancient Roman coins, it represented the Zoroastrian god, <i>Mithra</i>. The native American Cheyenne warriors revered the "<i>sacred medicine arrows</i>" as symbols of male power. Arrows held by skeletons would point to disease or death. Today, they usually just point in the preferred direction.</p>
	<p>Crystal (Gazing) BALL: Used for divination (fortunetelling, scrying, clairvoyance...). When the heavy crystal balls were too expensive, witches often used glass-ball fishing floats, colored glass balls, or magic mirrors. One website that markets these balls beckons: "Why not buy one and try your own free psychic reading."</p>
	<p>BAT: A symbol of good fortune in the East, it represented demons and spirits in medieval Europe.</p>
	<p>BLAIR WITCH: A five-pointed compound symbol with a center triangle pointing down. The five lines resemble the microcosmic man with arms and legs outstretched inside a circle (with a pentagram in the background)-- a magic symbol or charm among medieval alchemists and wizards.</p>
	<p>BUTTERFLY: Reminds Christians of the amazing transformation that takes place through Christ's redemption and regeneration. When "born again," we become "a new creation." (2 Cor. 5:17) To many pagans, its mythical meaning is linked to the soul (of the deceased) in search of reincarnation. See the new, politically correct meaning at Butterfly 208: "There's a theory that says if a single butterfly flaps its wings in, say, China, the air disturbance may cause a storm in Nunavut, Canada a month later. If that's the case, imagine the power of your own ideas and others to help improve the quality of life in the world's 208 countries! The Butterfly 208 contest is a chance for you to create your own Butterfly effect! 208 = Number of Countries in the World Butterfly + 208 = A totally interconnected world! A world where even small actions can have a big effect."</p>
	<p>"Sacred" BULL (Egyptian idol): These ancient Egyptian idols -- once worshipped as manifestations of gods -- are being revived. We have deleted a smaller (commercial) bull with horns that resembles a crescent moon supporting the divine sun disc. Some suggest that this combination -- like the Chinese yin yang -- may symbolize a mythical duality: a union of opposites such as light/dark, sun/moon, life/death, and male/female.</p> <p>God told His people long ago, "<i>Do not defile yourselves with the idols of Egypt.</i>" But they ignored His warning and faced devastating consequences for refusing to "<i>cast away the abominations which were before their eyes.</i>" (Ez. 20:7-8)</p>

	<p>CADUCEUS (The Staff of Hermes): An ancient symbol dating back to the Greek messenger god Hermes (the Romans called him Mercury). "In Indian philosophy and medicine the Caduceus is intimately associated with the system of energy centers called Chakras....The 2 serpents coiling around the staff [represent positive and negative forces like] the Yang and Yin of Chinese Medicine. The crossing over of the 2 serpents creates 5 energy fields in the body." Polarity Therapy (See Reiki and Rick Warren's Risky Health Plan)</p>
	<p>CHAOS: Apparently a self-made form of occultism taught through role-playing games such as Warhammer. According to one WH fan, "Chaos is the opposite of order. Since everything changes, there is no right or no wrong -- only the quest for pleasure. The 8-pointed star represents the many different directions of chaos and the many ways you can follow it. We worship deamons and angels..." Another comment: "They got it from Elric of Melnibone. In it, the force of Chaos had as its symbol an eight-pointed double-cross (symbols within symbols) with points representing the noncommittal and omnidirectional behavior of Chaos." See Chaos Magic. However, other Warhammer fans disagree with the quote above.</p>
	<p>CIRCLE (sun disc, sacred hoop, ring): An ancient and universal symbol of unity, wholeness, infinity, the goddess, female power, and the sun. To earth-centered religions throughout history as well as to many contemporary pagans, it represents the feminine spirit or force, the cosmos or a spiritualized Mother Earth, and a sacred space. (See next item) Gnostic traditions linked the unbroken circle to the "world serpent" forming a circle as it eats its own tail. (See serpent)</p>
	<p>CIRCUMPUNCT - CIRCLE with DOT (BINDU) in the center: It represents the sun and a sun god (called Ra in Egypt), gold (as in alchemy), an (unbiblical) archangel (Kabbalah), emotional restraint (Freemasons), and the creative spark of divine consciousness within people linking everyone to the creative mind of a universal "god" thus making each persona "co-creator" (astrology). In the complex symbolic system of Hinduism and Buddhism, the <i>bindu</i> (dot) represents the male force. Together, the circle and the <i>bindu</i> symbolize the spiritual merging of male and female forces. (See Sun Sign and the above explanation for CIRCLE)</p>
	<p>CIRCLE (Quartered): The sacred circle filled with a cross, four equal lines pointing from the center to the spirits of the north, east, south, and west -- or to the basic element: earth, water, air (or wind), and fire. In Native American traditions, it forms the basic pattern of the MEDICINE WHEEL and plays a vital part in major spiritual rituals. Many contemporary pagans consider it their main symbol for transmitting the energy of the goddess. (See sun wheel) Churches have used variations of the same popular shape, usually calling it the Celtic Cross.</p>
	<p>COW: It symbolized the sky goddess Hathor to Egyptians, enlightenment to Buddhists, one of the highest and holiest stages of transmigration (reincarnation) to Hindus.</p>

	<p>CRESCENT MOON: A symbol of the aging goddess (crone) to contemporary witches and victory over death to many Muslims. In Islamic lands, crescent can be seen enclosing a lone pentagram.</p> 
 <p>To grasp the significance of the Cross and its cost to our crucified and risen Savior, see The Cross.</p>	<p>The CROSS of Christians: While anyone--even pagans--now use the cross as decoration or as an occult symbol, Christians must continue to treasure the cross of Calvary. But be careful what kind of cross you wear - and what message you communicate to others. To understand the Christian significance of the cross and appreciate its excruciating cost to our crucified and resurrected Christ, read The Triumph of the Cross and "The Cross".</p> <p>Inverted cross: Originally represented the apostle Peter's humility in his martyrdom. He insisted that he be crucified upside-down, because he felt that he was unworthy to die in the same position as Christ. But today, especially in the rock music culture, it generally represents the opposite: satanism and its mockery of Christ. Lucifer continues to twist God's wonderful truths and works into lies and deceptions.</p>
	<p>COMMUNISM: Originally the hammer and sickle represented a hammer and a plough -- the collective unity of Soviet workers and peasant farmers. It's interesting to see its resemblance to Islam's symbol (crescent/star). The two ideologies have had much in common: hatred for Biblical Christianity and Jews (remember the Russian pogroms), readiness to kill those who don't conform, hope of world conquest, etc.</p>
	<p>CELTIC CROSS: The symbol for a cultural blend of medieval Catholicism and ancient Celtic traditions. Sometimes this cross is seen with four additional "arms" dividing the circle into eight instead of four sections.</p>  <p>Notice the similarity between the old Celtic cross and the cross designed by PBS (tax-funded Public Broadcasting in the U.S.) to represent Christianity (left side). Do you wonder why PBS would choose a similar cross (right side) to represent the Quartered Circle of the earth-centered religions of Aborigenes around the world?</p>  <p>The Celtic cross also represents the neo-pagan followers of the French anti-Christian philosopher Alain de Benoist.</p>
	<p>JERUSALEM CROSS: In medieval heraldry, it symbolized the "Crusader's Kingdom of Jerusalem" often displayed on shields and banners after the initial victory in the battle to recapture Jerusalem during the Crusades. (See the Maltese Cross). Some have linked the four corner crosses the "holy" wounds of Jesus or the four gospels. Similar shapes can be found on Hindu and Buddhist temples or coins -- and in various earth-centered cultures -- with entirely different sets of meanings. (See circle for relevant references to the four directions)</p>
	<p>IRON CROSS (or Cross Patt or EISERNES KREUZ): Adopted as the Iron Cross in Prussia. During the First World War, it appeared on German fighter planes and tanks. Later, it became a fascist symbol in France, Portugal and other nations. Compare it with Swastika 3.</p>

	<p>CROSS (MALTESE): This eight-pointed cross (linking the points of four arrowheads at the center) dates back to the First Crusade in the 12th century. It was used by the Knights Templar, the Knights of Malta, and the Order of St. John of Jerusalem among others. In 1813, during the War of Liberation against Napoleon, it was revived by Prussian King Friedrich Wilhelm III and became an award for acts of heroism, bravery or leadership skills.</p>
	<p>Double-headed EAGLE: A Masonic seal and initiation symbol. The number inside the pyramid over the eagle's head is 33. The eagle is a universal symbol representing the sun, power, authority, victory, the sky gods and the royal head of a nation.</p>
	<p>DOVE: Peace. It sometimes accompanies other symbols occasionally representing the world's vision of universal peace, such as the rainbow, olive branch, broken cross (see peace), globe, and Egyptian ankh. See Peace and Culture of Peace, which tells us that "The CULTURE OF PEACE Initiative' is a United Nations-designated 'Peace Messenger Initiative' - with Participants in all the world's regions."</p> <p>In the Bible, the Holy Spirit is, for a moment, made visible as a different kind of dove. It tells us that "Jesus also was baptized; and while He prayed, the heaven was opened. And the Holy Spirit descended in bodily form like a dove upon Him, and a voice came from heaven which said, 'You are My beloved Son; in You I am well pleased.'" Luke 3:21-22</p>
	<p>DRAGON : A mythical monster made up of many animals: serpent, lizard, bird, lion... It may have many heads and breath fire. To medieval Europe, it was dangerous and evil, but people in Eastern Asia believe it has power to help them against more hostile spiritual forces. In the Bible it represents Satan, the devil.</p>
	<p>DREAMCATCHER : An American Indian magic spider-web inside a sacred circle. After making dreamcatchers in crafts lessons in school, many children hang them on or near their beds. They have been told that these occult symbols will block bad dreams but allow good dreams to pass through the center. Don't believe that myth! [See New Beliefs for a Global Village]</p>
	<p>ELEMENTS: The four basic elements to many pagans are earth, water, air (wind or spirit) and fire. Many consider the first two passive and feminine - and the last two active and masculine. In Wiccan or Native American rituals, the "quartered circle" (also the Medicine Wheel) represents a "sacred space" or the sacred earth. The four lines may represent the spirits of the four primary directions or the spirits of the earth, water, wind and fire.</p> <p>(This set of <i>elements</i> differs from those used in alchemy.)</p>
	<p>ETERNITY: See Infinity and Uruborus</p>

	<p>EVIL EYE: The symbol of a dreadful, fabled curse (believed to bring sickness, death, bad luck, loss...). This "evil eye" has frightened people in many parts of the world through the centuries. Here it looks like a female eye on the "Hand of Fatima," but its shape varies with the culture.</p>
	<p>EYE OF HORUS: A favorite crafts project in schools, it represents the eye of Egyptian sun-god Horus who lost an eye battling Set. Pagans use it as a charm to ward off evil. (See All-Seeing Eye)</p> <p>Notice that the picture shows a compound symbol - several symbols joined together to give a more complex meaning. It includes an unbiblical cross and, at the bottom, part of a face inside the rays of the sun. (See Sun)</p>
	<p>FISH (Ichthys): Sometimes this early Christian symbol contains the name of JESUS or this set of Greek letters: "ΙΧΘΥΣ". This acronym has traditionally referred to "Jesus Christ, Son of God, Savior." It probably served as an identification sign among Christians as early as the 2nd Century AD. As Jesus said, "<i>Follow Me and I will make you fishers of men.</i>" (<i>Matt. 4:19</i>) (A new version of this fish symbol contains the name of Darwin and is designed to mock Christianity.)</p>
	<p>FLEUR-DE-LIS: Also called Lily of France, it was first an adaptation of the Gaulish lily representing the Virgin Juno. Among goddess worshippers, it apparently had several meanings, including the Triple Goddess. It appeared in Arthurian legends as well as on the French (and other national) "coat-of-arms" and royal or military emblems. It has also been an emblem for the Boy Scouts.</p>
	<p>FROG: A symbol of fertility to many cultures. The Romans linked it to Aphrodite, the Egyptian to the shape-shifting goddess Heket who would take the form of a frog. To the Chinese, it symbolized the moon -- "the lunar, yin principle" bringing healing and prosperity.^[1] Since frogs need watery places, their image was often used in occult rain charms.</p>
	<p>HAND OF FATIMA (daughter of Muhammad) or KHAMSA (five): Many Muslims believe that the image of the hand with an eye in the center will protect them from the "evil eye." While this symbol often appears on magical charms, amulets, and jewelry, it is seen in many other places. See a similar image painted next to the main door to a home here. This <i>Khamisa</i> seems to be the same as the Jewish <i>Hasma</i>. Many serious Muslims view this as folklore or superstition.</p>
	<p>HAND OF FATIMA or HAMSA (five): Jewish versions of the supposed "hand" of protection (above) from "evil eye" (Some expect protection from demons and sorcerers as well). During the Israelites' exile in Babylonian, some began to blend Old Testament beliefs with Babylonian myths and mysticism. Such syncretism continued through the centuries. One of its manifestations was the mystical Kabbalah -- the heart of many streams of modern occultism (including the Order of the Golden Dawn and other secret societies, Tarot cards and divination, etc.)</p>

	<p>HAND OF... what? Native American version of two above symbols. Found on a flat, round sandstone disk during the excavation of an old Indian mound in Alabama, its original meaning is lost. Perhaps it was used in rituals preparing for tribal wars.</p>
	<p>HEARTAGRAM: Originally a logo of "Love Metal" band, HIM, whose fans would wear the symbol --within a circle -- as a tattoo. But it's popularity has spread far beyond the band that designed it. To many, it represents the dialectic or blending of opposites such as love/hate and life/death. See Pentagram, Popular Occultism and Yin yang</p>
	<p>HEXAGRAM (see triangles) or SIX-POINTED STAR: When surrounded by a circle, it represents the "divine mind" (a counterfeit of God's wisdom) to numerous occult groups through the centuries. Many still use it in occult rituals. But to Jewish people -- without the surrounding circle -- it is their Star of David.</p>
	<p>HOOK 'EM HORNS & HORNEDED HAND (Mano Cornuto): "President Bush's 'Hook 'em, horns' salute got lost in translation in Norway, where shocked people interpreted his hand gesture during his inauguration as a salute to Satan. That's what it means in the Nordics when you throw up the right hand with the index and pinky fingers raised, a gesture popular among heavy metal groups and their fans in the region....'Shock greeting from Bush daughter,' a headline in the Norwegian Internet newspaper Nettavisen said." "Norwegians Confused by Bush Salute"</p>
	<p>INFINITY (also eternity): In ancient India and Tibet, it represented perfection, dualism, and unity between male and female. In the occult tarot it's linked to magic and represents equilibrium or the balance of various forces. The uroborus (a circular serpent biting its tail -- a UN symbol for "Human Settlements") has been found in this shape. In modern times, it became a secular mathematical symbol for infinity in numbers, time or space.</p>
	<p>ITALIAN HORN (Cornu, Cornicello, Wiggly Horn, Unicorn horn, Lucifer's horn or Leprechaun staff). The ancient magical charm or amulet worn in Italy as protection against "evil eye" has also been linked to Celtic and Druid myths and beliefs. Other superstitions link it to sexual power and good luck. It is often worn with a cross (for double protection or luck?). In pre-Christian Europe, animal horns pointed to the moon goddess and were considered sacred.</p>
	<p>KABALLAH (Kabbala, Cabala, Qabala, etc....): See</p> <ul style="list-style-type: none"> • The Mystical Kabbalah • The Zohar, the Harbinger & Kabbalistic Mysticism • The Harbinger, the Inverted Tree and Prophetic Speculation

	<p>LABYRINTH: ♦...predate Christianity by over a millennium. The most famous labyrinth from ancient times was in Crete... the supposed lair of the mythological Minotaur.... Turf labyrinths still exist in England, Germany and Scandinavia, and are thought to be linked with local feminine deities and fertility rituals.... The patterns of the labyrinth are similar in design and conception to the mandalas of South Asian Buddhism, which are physical representations of the spiritual realm designed to aid in meditation. Labyrinths blend their visual symbolism with the process of walking, which is similar to the Japanese Zen practice of kinhin, literally 'walking meditation... In the early 90's, when Jean Houston, one of the leading New Age teachers, introduced the Christian world again to the use of this practice for seeking spiritual enlightenment through walking the labyrinth." Steve Muse, Esoteric Christianity</p>
	<p>LIGHTNING BOLT: In ancient mythologies from many cultures (Norse, Roman, Greek, Native American, etc.) the lighting bolt would be hurled by male sky gods to punish, water, or fertilize the earth or its creatures. Navajo myths linked it to the Thunderbird, the symbol of salvation and divine gifts. On children's toys, it represents supernatural power. Double bolts, popular with contemporary skinheads, symbolize Nazi power.</p>
	<p>LION: An ancient symbol of the sun, dominion, power, ferocity and bravery, the "king of the beasts" was often used on heraldic shields, flags or banners by medieval European rulers. In Tarot cards, an occult system of divination based on the Kabala, it symbolized strength or power. In ancient mythology it was identified with sun worship and the imagined power of both gods and goddesses. The lion head ringed by its golden mane was used in ancient mystery initiations and ritualistic sun worship.</p> <p>While pagan nations used it to represent their mythical views of reality, the lion was created by God. In the Bible, we see how He used it for His purposes.</p>
	<p>LIZARD: Its "sun-seeking habit symbolizes the soul's search for awareness." To the Romans, who believed it hibernated, the lizard meant death and resurrection.^[2]</p>
	<p>Magic MIRROR: Used for "scrying" (foretelling the future, solve problems, answer questions....) The preferred <i>spectrum</i> might be decorated with "magic signs" during full moon rituals. Rosemary Ellen Guiley explains: "The ancient art of clairvoyance achieved by concentrating upon an object-- usually one with a shiny surface-- until visions appear....The term scrying comes from the English words descry which means 'to make out dimly' or 'to reveal.'" <i>The Encyclopedia of Witches and Witchcraft</i>, 307.</p>
	<p>MANDALA: The Hindu term for circle. In Hindu and Buddhist meditations, it is used to raise consciousness. In meditation, the person fixes his or her mind on the center of the "sacred circle." Geometric designs are common. The center of some mandalas show a triangle with a bindu (dot) inside a circle. It represents the merging of male and female forces.</p>

	<p>MASONS (Freemasons): The Masonic symbol of the compass and the T-square represents movement toward perfection and a balance between the spiritual and physical which resembles Egyptian and oriental mysticism. The compass (used to form circles) represent spirit. The ruler (part of a square) represent the physical. Some public schools pass out pencil cases and other gifts decorated with this emblem. See All-Seeing Eye, Eye of Horus, and Dreamcatcher. Read "Masonic Centers are dream catchers," "The Masonic Lodge, then "Brotherhood of Darkness" by Dr. Stan Monteith.</p>
	<p>MASK: Used by pagans around the world to represent animal powers, nature spirits, or ancestral spirits. In pagan rituals, the wearer may chant, dance and enter a trance in order to contact the spirit world and be possessed by the spirit represented by the mask. The mask pictured represents the mythical Hindu elephant god, Ganesha.</p>
	<p>MEDICINE SHIELD: A round shield decorated with personal symbols or pictures of the animal spirit(s) contacted on a Spirit Quest or through a classroom visualization simulating an American Indian ceremony. Its basic image is often the form of the "medicine wheel" or quartered circle</p>
	<p>MERMAID: Based on ancient myths in India, Greece, Syria, Africa and other parts of the world. Seen by some cultures as sea goddesses, these seductive beings guarded treasures, frightened travelers, and were eventually featured in alchemy and other occult practices as well as in fairy tales. By medieval times, the alluring Sirens of Homer's days had apparently evolved into a promiscuous split-tailed versions that symbolized mystical sex to alchemists and secret societies. German legends describe a mystical Nixie -- a fish-tailed female water spirit, daughter of "Mother Night." In our times, the more benign fairy tales of Hans Christian Andersen and Disney Studios have generally erased any cultural memory of those occult roots.</p>
	<p>MUSLIM BROTHERHOOD (MB): Featuring the Koran at the top, it reminds us that MB stands ready to use their swords to defend their militant beliefs against anyone who refuses to bow to their Islamic ideology. Their agenda is Jihad, and their goal is a global Caliphate. That means constant readiness to fight the enemies of God -- until a world-wide victory is theirs. Please read the history of the MB here: The Nazi/Arab plots to exterminate Jews</p>
	<p>OIC: Organization of Islamic Cooperation: The new OIC logo with a green instead of red crescent. The old name was Organization of the Islamic Conference. The new green crescent enfolds the planet. In the center is a tiny image of the Kabala, Islam's most sacred site in Mecca. According to the OIC, this is a drastic positive change in the performance of the organization to uplift its effectiveness as an international system dealing with political, economic, cultural and social development issues. ♦ Kazakhstan President Nursultan Nazarbayev described the OIC as the U.N. of the Islamic world. ♦</p>

	<p>U.S. Missile Defense Agency Logo: Does this military logo remind you of the Islamic crescent and star? Or President Obama's campaign symbol, with a blue curve and three converging red lines? But the similarity may not be intentional: New government logo</p>
	<p>OM: Sanskrit letters or symbol for the "sacred" Hindu sound om (ohm or aum) called "the mother of all mantras. Apparently, the four parts symbolize four stages of consciousness: Awake, sleeping, dreaming, and a trance or transcendental state. [See Heresy in high places]</p>
	<p>OWL: Cherokee [Indian] shamans viewed Eastern Screech-Owls as consultants on punishment and sickness. The Cree believed that the whistle-sounds of the Boreal Owl was a summoning call to the spirit world. Other Native American traditions hold that the owl represents vision and insight. In Africa the owl is associated with witchcraft and sorcery. Australia, China, Greenland, India, Indonesia, Japan, Russia and Sweden all have cultures or mythical traditions that give spiritual significance to the owl. Probably one of the most bizarre occurrences of owl symbolism can be found at the "Bohemian Club." Find this and more information at Wise Old Owl</p>
	<p>PEACE SYMBOL or a BROKEN UPSIDE-DOWN CROSS: Like many simple symbols, it meant different things at different times. Some call it Nero's cross, linking it to the notorious Roman emperor who persecuted Christians. Centuries later, it was recognized as an old Norse Rune. <i>[Notice its image in the lower left corner of this ancient rune stone. Its reverse image is under the nose of the serpent.]</i>^[6] Vikings called it "Toten Rune (Death Rune)," while some Germanic people labeled it <i>Todesrune</i> (Rune of Death).^[7] After WW2 (1939-1945), it was found on the tombstones of certain Hitler's SS troops and labeled 'The Dead Man Rune.' <i>[Reference to bottom image of Scandinavian runes at</i> ^[8]</p> <p>Revived in the sixties by hippies and others who protested nuclear weapons, Western culture, and Christian values, it became a worldwide symbol of a new age of global peace and earth-centered unity. But many heavy metal rock fans would agree with Nero and have used it to mock Christ and His followers.</p>
	<p>PENTACLE or PENTAGRAM (FIVE-POINTED STAR pointing up): A standard symbol for witches, freemasons, and many other pagan or occult groups. To witches, it represents the four basic elements (wind, water, earth and fire) plus a pantheistic spiritual being such as Gaia or Mother Earth. The pentagram is also "used for protection. to banish energy, or to bring it to you, depending on how it's drawn," wrote a Wiccan visitor. Compare with the next link.</p>
	<p>PENTAGRAM (FIVE-POINTED STAR pointing down): Used in occult rituals to direct forces or energies. Often represents satanism, the horned god or various expressions of contemporary occultism, especially when a goat-head is superimposed on the inverted pentagram within a "sacred" circle. See Heartagram, Baphomet and Pentagrams and Pentacles</p>

	<p>PHILOSOPHERS STONE: The symbol for the Alchemist quest for transformation and spiritual illumination, it was also the British title of the first Harry Potter book (the U.S. publisher changed it to Sorcerer's Stone). The double-headed eagle in the center is a Masonic seal. See also the Phoenix.</p>
	<p>PHOENIX: A universal symbol of the sun, mystical rebirth, resurrection and immortality, this legendary red "fire bird" was believed to die in its self-made flames periodically (each hundred years, according to some sources) then rise again out of its own ashes. Linked to the worship of the fiery sun and sun gods such as Mexico's Quetzalcoatl, it was named "a god of Phoenecia" by the Phoenician. To alchemists, it symbolized the the destruction and creation of new forms of matter along the way to the ultimate transformation: physical (turn lead into gold) and spiritual (immortality - an occult alternative to the Christian salvation). The philosopher's stone was considered the key to this transformation.</p>
	<p>SCARAB: Symbol of the rising sun, the Egyptian sun god Chepri (or Khepera), and protection from evil. To ancient Egyptians, the dung beetle rolled its dung balls like Chepri rolled the sun across the sky. The "sacred" symbol adorned popular seals, amulets and magic charms (worn as protection against evil spirits or to overcome barrenness) first in Egypt, then in Phoenicia, Greece and other Mediterranean lands. Medieval alchemists used its pattern in their magical diagrams.</p>
	<p>SERPENT OR SNAKE: Most earth-centered or pagan cultures worshipped the serpent. It represents rebirth (because of its molting), protection against evil, either male or female sexuality, rain and fertility, a mediator between the physical and spiritual world.... It also represents female energy or life force in goddess worship, sometimes linked to the eastern Kundalini force or a supposed "goddess within." The list of meanings is endless, but in the Bible it usually represents sin, temptation, destruction, and Satan. (See dragon) The circular image of the serpent biting its tail links the mythical significance of the serpent to that of the sacred circle. See UROBORUS and spiral.</p>
	<p>SIKH symbol called the KHANDRA: In the middle is a single double-edged sword pointing to a single God. (The truth about this God is revealed through Ten Gurus.) The circle -- the Chakra -- refers to the unity of this God and people. Two single-edged swords frame the Chakra. They represent spiritual and temporal powers.</p>
	<p>SPIDER: Linked to treachery and death in many cultures, it was seen as a "trickster" in ancient Africa, a "spinner of fate" in ancient goddess cultures and -- in ancient Greek myths -- the goddess Arachne turned into a spider by her jealous rival Athena. "Christian" cultures have linked it both to an evil force that sucked blood from its victims and to "good luck" because of the cross on the back of some species. The Chinese have welcomed the spider descending on its thread as a bringer of joys from heaven.</p>

	<p>SOCIALIST SOLIDARITY: The revolutionary clenched fist within a black domain represents the International Socialist Organization (ISO). The second fist, usually black, could be a collective call to fight for socialism or communism in any group, state or nation.</p>
	<p>SPHINX: Ancient Egyptian and Babylonian <i>guardian of sacred places</i> --an idol with human head and a lion's body. The Greek sphinx would devour travelers who failed to answer her riddle. According to <i>A New Encyclopedia of Freemasonry</i> (by Arthur Waite, xii) the masonic sphinx "is the guardian of the Mysteries and is the Mysteries summarized in a symbol. Their secret is the answer to her question. The initiate must know it or lose the life of the Mysteries. If he can and does answer, the Sphinx dies for him, because in his respect the Mysteries have given up their meaning." (<i>An occult, counterfeit view of redemption</i>) See www.srmason-sj.org/web/temple.htm</p>
	<p>SPIRAL: Linked to the circle. Ancient symbol of the goddess, the womb, fertility, feminine serpent force, continual change, and the evolution of the universe. (Illustrated at this website) A common shape in nature (snail, shells, fingerprint...)</p> <p>Double SPIRAL: Linked to earth-centered or mystical faith in a blend of evolution and devolution -- decay/renewal, life/death/rebirth, spiritual/physical -- the back and forth flow of earthly and cosmic changes. With its focus on the unity of opposites, it resembles the Yin Yang.</p>
	<p>SQUARE: In contrast to the circle which often symbolizes the sacred and spiritual (including the "sacred" earth), the square represents the physical world. Like the quartered circle, it points pagans to the four compass directions: north, east, south and west. While the circle and spiral symbolize female sexuality in many earth-centered cultures, the square represents male qualities.</p>
	<p>SUN FACE: The pictured image is part of an 18th century Masonic ritual painting, but it illustrates a symbol that has been central to most major spiritual systems of history. Since the sun god usually reigned over a pantheon of lesser gods, his symbol played a vital part in pagan worship (and in the rituals of occult secret societies) around the world. In Inca myths, the sun was worshipped as the divine ancestor of the nation. For links to more information, see Sun face in our Q&A section.</p>
	<p>SUN & MOON JOINED AS ONE: A universal pagan expression of the merging of opposites. Like the Yin Yang, the marriage of the male sun and the female moon represents unity in diversity, compromise instead of conflict, and conformity to a new consciousness where all is one. (See The Marriage of the Sun and Moon)</p>

	<p>SUN and SUN SIGN: The sun was worshipped as a personified, life-giving deity in Babylonian, Egyptian, Greek, Roman, and other major civilizations of history. Today's more common symbol is the familiar face in the center of the sun's rays. This is explained in Teletubbies. (See sun symbol below the picture of the Eye of Horus) A dot or point in the center of a circle symbolizes the blending of male and female forces. (See air, which also represents spirit, among the symbols for Elements) Hindus call the midpoint in a circle the bindu - the spark of (masculine) life within the cosmic womb.</p>
	<p>SUN SIGN 2 : Found in Turkey and believed to represent the sun and the four directions. (See Swastika 1 and 2). Compare the curving lines with the primary lines of Swastika 3, the iron cross. Notice also that without the horizontal line, the symbol resembles the outline of the Yin-Yang.</p>
	<p>SUN WHEEL or RING CROSS : A universal symbol found on ancient slabs in Nordic countries, in pre-Columbian America and in Mediterranean countries. "Today, it is used as a log by some new fascist organizations," according to the <i>Dictionary of Symbols</i>. [3] Like the swastika and other sun symbols, it represents power and supremacy. See also Circle (Quartered) It serves as a logo for the Swedish national socialist party, Nordiska Rikspartiets (scroll to drawing of the sun wheel on a banner), and for the French Jeune Nation.</p>
	<p>SWASTIKA 1: Ancient occult symbol found in Egypt, China, India... (The lower picture shows part of a Hindu temple) Chinese versions include a right-handed (yang) and a left-handed (yin) version -- opposites that "harmonize." It has represented the sun, the four directions, movement and change (the four appendages) and union of opposites (lines crossing). As a pre-Hitler elitist symbol, it was found in the Skull & Bones vault at Yale.</p> <p>Revived by Hitler, it represents racism and the "white supremacy" of neo-nazis. It's often placed within a circle. There is also a swastika on the gravestone of John Ruskin (mentor of Cecil Rhodes, who formed the secret Society of the Elect "to take the government of the whole world" - Ruskin's words). In <i>Time and Tide</i> (1867), Ruskin wrote that "...the Government must have an authority over the people of which we now do not so much as dream." Ruskin has been reported to be involved in the Illuminati.</p>
	<p>SWASTIKA 2 (Crux Dissimulata): An ancient swastika which symbolized the four winds or directions and their corresponding spirits. It was also a "fire and sun symbol occurring initially in Asia and later among the Germanic tribes," according to <i>The Herder Symbol Dictionary</i>. [4] "The cross inscribed in a circle mediates between the square and the circle," emphasizing the "joining of heaven and earth.... and "the perfected human being."</p>
	<p>SWASTIKA 3: A contemporary variation of the many swastikas with labyrinth patterns. Like the two swastikas above, its arms point counterclockwise indicating a mystical, lunar and female orientation. Compare its two intersecting lines with Sun Sign 2, its curved arms (following the shape of the circle) with Swastika 2, and its dark areas with the Iron Cross.</p>

	<p>The TAO: An ancient Chinese symbol used originally to represent a widespread belief in unity, polarity, holism, and magic. See the Yin-Yang and read a longer definition in the Abolition of Man by C.S. Lewis, who suggested the <i>Tao</i> as an ethical system for our times.</p>
	<p>THEOSOPHY: A simplified version of the symbol behind the occult beliefs of UN leader Robert Muller (his World Core Curriculum became a worldwide pattern for global education) and education leader Shirley McCune [See Star Wars Joins United Religions at the Presidio and The International Agenda] Notice the ankh in the center. The more elaborate version inserts a variety of other symbols such as the OM, pentagram, cross, etc. <i>(Because of its dark occult meaning and similarity to some of the complex magical signs used in alchemy and masonic rituals, we prefer not to post it.)</i></p>
	<p>TOAD: Linked to witchcraft and other occult practices.</p>
	<p>TONGUE (protruding): Linked to flame, fire, fertility, sexual power and spiritual power. In nations around the world, images of deities or masks with protruding tongues have indicated active and occupying spiritual forces -- often a union of masculine and feminine spirits. Such images were vital to pagan rituals invoking [demonic] spirits. The sexual/spiritual forces represented by gargoyles with protruding tongues which adorned Gothic cathedrals were believed to protect the buildings from other spiritual powers.</p>
	<p>TOTEM: Carved, painted representation of power animals or animal-human ancestors. To American Indians in the Northwest, who believe that all of nature has spiritual life, the animals in their totems poles represent the spiritual powers of animal protectors or ancestors.</p>
	<p>The WORLD TREE. This image is the top of a spoon I found in a collection my parents brought from Norway in the fifties. Below the five-pointed crown and the Rolex label is the bare rooted tree, which is common to myths in many parts of the world. Its branches supposedly reach up to mythical heavens and its roots encircle the earth. It symbolizes humanity reaching for the heights of occult spiritual experience. In ancient pagan Scandinavia it was called Yggdrasil, a "Cosmic Tree." Its also linked to the worship of Canaanite, Greek, Roman, Celtic and other mythological deities through the ages.</p> <p>The bowl of the spoon shows a Lion pierced with a sword or arrow through the heart. The image includes a shield, cross, battle ax and a flower between the lion's front paws. (More will be posted on this later)</p> 

	<p>TRIANGLE (<i>Seen in the center of an astrological chart</i>): Associated with the number three. Pointing upwards, it symbolizes fire, male power and counterfeit view of God. (See pyramid) To Christians, it often represents the Trinity. Pointing down, it symbolizes water, female sexuality, goddess religions and homosexuality. See chart of symbols in What Teletubbies Teach Toddlers. See large picture of Kabbalistic triangles used in ritual magic.</p>
	<p>TRIDENT: Called "the devil's pitchfork," it has symbolized major gods in various pagan cultures. In India, it is linked to the Hindu "trident-bearer" Shiva, spouse of the skull-bearing goddess Kali. More recently, this three-sponged spear has been used by Hindu militants in India to intimidate Christians. See article: "India Local Government OK's 'Anti-Christian' Weapons Distribution"</p> 
	<p>TRINITY [Our Triune God]: An early Christian symbol for the Trinity. It is related to the symbol of the fish (<i>vesica piscis</i>) used by the early -- and often persecuted Christians -- to identify themselves as belonging to Jesus Christ. Apparently, the word "fish" in Greek is a combination of the first letters of His name: Jesus Christ, Son of God, Savior. Like many Christian symbols, the same shape has also been used by various pagan religions throughout history. See the next symbol:</p>
	<p>TRIQUETRA: The triquetra -- with or without the circle -- has been found on runestones in Scandinavia, in ancient goddess-oriented pagan groups, in Celtic manuscripts, and on early Germanic coins. It is associated with numerous mythical gods and goddesses and has been used as a protective charm by Wiccans. Sometimes the symbol is reversed -- pointing down rather than up. The three points may also be round rather than pointed.</p>
 <p>Unicorn, in British Royal Coat of Arms.</p>	<p>UNICORN: To many New Agers, it means power, purification, healing, wisdom, self-knowledge, renewal and eternal life. Origin: In the 4th century BC, Greek historian Ctesias told about a wild animal with healing powers and a spiral horn on its forehead. Medieval myths suggested it could only be caught with help from a virgin who would befriend it.</p>
	<p>UROBORUS: The circular serpent (yes, the circle represents a serpent with head in upper left corner) seen here) biting its own tail represents eternity and the cycles or "circle of life." Medieval alchemists linked it to the cyclical processes in nature. The <i>uroborus</i> pictured here (encircling the UN symbol for humanity seen inside a triangle) was the official symbol for the 1996 United Nations Conference on Human Settlements pictured on all its literature. See (Habitat II). See other versions of the <i>Uroborus</i> at serpent.</p> 

	<p>WHEEL: A universal symbol of or cosmic unity, astrology, "the circle of life," evolution, etc. The pagan sacred circle plus any number of radiating spokes or petals form the wheel - a Wheel of Life to Buddhists, a Medicine Wheel to Native Americans, a Mandala to Hindus. It symbolizes unity, movement, the sun, the zodiac, reincarnation, and earth's cycles of renewal. Pagans use it in astrology, magic and many kinds of rituals. (See Medicine Wheel and Quartered Circle)</p> <p>This SUN WHEEL became a magical amulet to the Celtic Gauls or Gaels in Europe. Later, "Christians adopted the form, changing it slightly, so that it became a Christ monogram drawn within a circle." [celticrevival.com]</p>
	<p>(Tibetan Prayer) WHEELS: "devices for spreading spiritual blessings and well being. Rolls of thin paper, imprinted with many, many copies of the mantra (prayer) Om Mani Padme Hum... are wound around an axle in a protective container, and spun around and around. Tibetan Buddhists believe that saying this mantra, out loud or silently to oneself, invokes the powerful benevolent attention and blessings of Chenrezig, the embodiment of compassion." (From The Prayer Wheel)</p>
	<p>WHEEL OF DHARMA: Buddhist wheel of life and reincarnation. Sometimes it is shown with a small yin yang symbol in the center.</p>
	<p>WISHBONE: Civilizations dating back to the 4th Century (Etruscans, Romans... Britain, America) have held turkey or chicken <i>wishbone</i> contest. Pulling the dry turkey or chicken bone until it snapped ("lucky break"), they believing the winner's wish or dream would come true. In today's increasingly superstitious culture, many believe that this symbol will "catch" their dreams, bring good luck, and make their wishes come true. As in contemporary witchcraft or magic, the object becomes a channel of "good" energy. Astrology and horoscopes link it to Saggitarus. It might also be confused with the Lambda (looks like a lower case, upside-down "y"), the Greek letter adopted by the International Gay Rights Congress in 1974 as the global symbol of homosexual "pride".</p>
	<p>WORLD HEALTH ORGANIZATION (WHO, a UN agency): This symbol points back to the days of Moses, when a dead serpent was displayed on a stake during the Israelites 40-year journey through the wilderness. Instead of trusting God, the people complained, so "the Lord sent fiery serpents among the people...and many...died." When they confessed their sin, God told Moses to "make a fiery serpent, and set it on a pole." Those who then looked at the bronze serpent on the stake with confidence in God's promise, were healed (Numbers 21:4-9). This became an illustration of the crucifixion through which Jesus bore the judgment we deserve for our sins. (See John 3:14) About 700 BC, faithful king Hezekiah 'broke in pieces the bronze serpent that Moses had made, since the people worshiped it as an idol and "burned incense to it." (2 King 18:1-5)</p> <p>Brock Chisholm, the first head of WHO, showed his hatred for our God in a 1946 article in <i>Psychiatry</i>: "We have swallowed all manner of poisonous certainties fed us by our parents, our Sunday and day school teachers..." More here.</p>

	<p>WORLD TRIAD: Originally an oriental symbol, it was "adopted by western Gnostics as an emblem of cosmic creativity, the threefold nature of reality or fate, and the eternally spiraling cycles of time... In Japan it was <i>maga-tama</i> or <i>mitsu tomoe</i>, the world soul.... In Bhutan and Tibet, it is still known as the Cosmic Mandala, a sign of the Trimurti."⁵ Like the yin yang (below), it also represents eternity. This is also the symbol for U.S. Department of Transportation. Another Gnostic symbol is the uroborus.</p>
	<p>YIN YANG: A Chinese Tao picture of universal harmony and the unity between complimentary opposites: light/dark, male/female, etc. Yin is the dark, passive, negative female principle. Yang is the light, active, positive principle. Since the holistic balance between Yin and Yang is dynamic and constantly changing, it illustrates the consensus process, the vision of global unity, and the blending of opposing energies at the heart of Holistic Health.</p> <p>Since it represents monism (all is one) and pantheism (all is God), it opposes Christianity, which shows us that there is only one God (monotheism), and <i>only in Christ</i> can we be one. See The Tao</p>
<h2>COMPOUND SYMBOLS</h2>	
	<p>ASTROLOGICAL CHART: used by medieval alchemists in divination. Notice the symbol of the <i>intellect</i> and of the <i>planet</i> (and Roman god) <i>Mercury</i> inside the center triangle. This triangle is surrounded by a hexagram and two smaller triangles positioned as male and female energy - and seven more concentric circles. Compound symbols within magical codes and names inside multiple circles have been used by occultists and sorcerers in many parts of the world. It is still used in African witchcraft.</p>
	<p>All-seeing EYE in the PYRAMID: The official symbol for DARPA Total Information Awareness, a surveillance and information system established by the U.S. government. [See programs] Notice how the masonic all-seeing eye of the new world order covers the planet with its enlightening rays. [<i>Sometime in December 2002, this symbol was removed from the TIA website. Perhaps too many people complained. See Federal database spy site fading away</i>]</p>
	<p>Masonic COMPASS (also Mormon), Skull, Circle (Uroborus?), Pen & Scroll(?). Worn as a patch on a gray sweater by Mormon reporter Glenn Beck on his April 1, 2011 show on Fox. Perhaps it was an April Fool's joke. See this video or (alternative video).</p>
 <p style="text-align: center;">Click here</p>	<p>The GREAT SEAL of the United States of America: The design for this national emblem was completed in 1782. Some consider its occult and masonic images an American mission statement. The inscribed motto, E Pluribus Unum means "Out of many, one." The words Novus Ordo Seclorum mean "a new order of the ages," according to this website: www.greatseal.com. The two sides show the symbol of the eagle (first a phoenix) and the eye in the pyramid. See All-Seeing Eye & Eye of Horus & Great Seal. But the more correct meaning would be NEW WORLD ORDER [<i>novous</i> = new, <i>ordo</i> = order, <i>seclorum</i> = secular or world] See also www.greatseal.com & A More Perfect Union</p>

	<p>The GREAT SEAL (back side) of the United States of America: "An unfinished pyramid appears on the reverse of the seal, inscribed on its base with the date 1776 in Roman numerals. Where the top of the pyramid should be, the so-called eye of Providence watches over it. Two mottos appear: Annuit Coeptis signifies that somebody (presumably Providence) has "nodded at (our) beginnings". Novus Ordo Seclorum, a quotation from Virgil, refers to a "new order of the ages", i.e. a paradigm shift." See www.nationmaster.com/encyclopedia/Great-Seal-of-the-United-States</p>

Warning Concerning Symbols

In the world of the occult, many symbols are imbued with power by the magician working in conjunction with the demonic spirit world. The Wiccan leader Starhawk, founder of the Covenant of the Goddess, knows that well. "To cast a spell is to project energy through a symbol," she wrote in *The Spiral Dance*, her popular manual for witchcraft.

Since the occult use of symbols have spread like epidemic across the Western world, we want to exercise caution. Therefore, when we began to add pictures to the original list of symbols, we decided to leave out certain images particularly satanic symbols that obviously represent evil. Though many were already familiar to children in public schools, we didn't want to risk implanting

those images on a child's mind. We also left out the theosophical symbol, some of the more complex masonic symbols, and other symbols typically used for magic and alchemy. To explain, let me share an important lesson I learned about five years ago.

I was speaking at a Bay Area Sunday School Convention (BASS) in California on the topic, "The Unholy Power of Charms and Symbols." Parents and teachers were still crowding into the small auditorium, when I began showing transparencies of simple symbols such as the [yin-yang](#), the peace symbol, and the ankh. We discussed why these symbols were important to people long ago and why their popularity has skyrocketed today.

Then we looked at more universal symbols such as the pentagram, the lightening bolt, the sun, and the circle -- including the Wiccan quartered circle, the Native American medicine wheel, and the Buddhist wheel of life. "Why are they considered universal?" I asked. "What mythical themes do they echo from around the world? Why are they so important to multicultural education?" (We will post a chapter from *A Twist of Faith* which answers these questions.)

Finally, we looked at compound symbols. (You can see an example at the end of the current list of symbols.) The day before the conference, I had been searching for a particular combination of symbols found in a Theosophical emblem. By the time I did find it, it was too late to put it on a transparency. Then I had made a foolish decision: I prepared to draw the occult image onto the transparency in front of the class.

Putting the clear transparency on the projector, I drew a large circle, then added two overlapping triangles (one pointing up, one pointing down), forming a hexagram. I began to fill in various single symbols: the pentagram, swastika. Suddenly, something dark and heavy hit me in the chest. For a moment I lost both my balance and my breath, then, in a flash, I knew what was happening. I had unwittingly performed an occult ritual common to Buddhist and Native Americans traditions as well as to medieval alchemy. By the very act of drawing the symbols, I had invoked a spiritual entity.

Still in front of the crowd and the microphone, I cried out, "Forgive me, Lord! Cover me with your blood. In the name of Jesus Christ, I declare Your victory over the evil one. In You, we are 'more than conquerors!' Thank you, Jesus, my Lord and my King!"

I apologized to the audience, asking their forgiveness for imposing on them a ritual that brought forth this evil. Then we all thanked God for His lesson and protection.

As fast as the demonic entity came, it was gone. Among the people gathered around me afterwards was a woman who said, "I think I know what happened to you. While you were drawing that symbol, the man sitting next to me was moving his hands in strange ways and murmuring something as if he was casting a spell. He may have come to bring occult interference."

It didn't surprise me. I have often encountered challenges when I address these topics in public places. But God has always used it for good, giving me answers on the spot as well as ongoing opportunities to share with them God's truth and wisdom.

Only God knows exactly what happened. But His Word is full of warnings concerning any participation in the works of darkness. If I opened the door to evil interference through my foolish demonstration, a servant of Satan could surely work with the evil one to enhance his work. God, who promises never to give Satan more reigns than His love allows, will still allow the painful consequences needed for our training in obedience.

Though we fellowship at a small, non-charismatic, non-denominational Bible church, God has often put me in places where I have had to help those who were trapped in occult bondage. Through these lessons, I have learned to look with sober caution at the power of evil. Yet, all the more, I praise my Lord for His continual protection and faithfulness

As our nation [slides back](#) toward paganism, God's people need to understand the increasing influence, trickery, and cruelty of [the evil one](#) while always thanking and following our God, whose power is far greater. Therefore, I plead with all of you to exercise great caution when confronted with any sign of Satan's work. Please remember to wear [God's armor](#), and remember that we leave the "breastplate of righteousness" behind when we go where He tells us not to go. For the armor that covers us is the very life of Jesus, our Lord. Walking with Him in His ways, we are always safe.

In conclusion, we must be very careful what we call good. Many of these symbols open gates for demonic forces to come into our lives. They may seem innocent enough, but they are evil. If we are to walk in the fullness of the Spirit, we must maintain integrity in every area.

The links in this study are available on our website when we post it later today. As always, take everything that has been taught to prayer. Ask God if there is something that you need to remove from your life. It is better to be right with God than be right with man.
