FILL 'ER UP

Have you ever run out of gas? It has happened to me a few times, and both times it was a critical situation. I had not checked the tank, and the vehicle stopped. Fortunately, there was someone close by to help me. It was my own fault because I hadn't checked the gas gauge. This can happen with a lawnmower, or any machine that runs on gasoline. Then sometimes the carburetor is messed up and it will not start and might need an overhaul.

What about your spiritual gas tank? Are you so busy with life that your spiritual tank is running on empty? Do you need a spiritual tank overhaul? Do you take the time to come apart from the busyness of the world, and get a spiritual fill up?

Then, we sometimes have a leak in our spiritual tank! Little by little it empties, until it just is dried up. Are you in that position? Are you feeling dry about God, and things of the Spirit? You need a fill up. Do not shy away from God during these times. It is in these times that you need God more than ever. He wants you to be filled up with his love, his goodness, and his joy!

In the book of Jude that only contains 25 verses, there is a very needful verse. In verse 20 it says, ***"But ye, beloved, building up yourselves on your most holy faith, praying in the Holy Ghost."*** By doing this, verse 21 tells us it will ***"keep yourselves in the love of God"***

Perhaps you may feel God is angry with you over something you did. If that is the case, then repent, then fill yourself up on the love of God by praying in the Spirit. We absolutely must take time to fill ourselves up in this age. There is so much going on around us to "drain" our spiritual tank my friends. You must stay filled up spiritually. Come aside and pull into his filling station and fill up! He is waiting to fill you to overflowing! Be blessed!
