UPSIDE-DOWN CAKE

For those of you that have ever done any baking, there is one cake that always seems a little strange. It is the upside-down cake. You put your ingredients in the pan the opposite of what most cakes are made. The good stuff like fruit is put in where it settles to the bottom. After baking you flip the cake over and the fruit ends up on top.

As I was preparing for today's message, the Lord impressed upon me that many of you are wondering what is going on in your life. It seems that you have poured all the good you have into your life and now you are wondering why it seems to have disappeared. It is as if you have nothing to show for it. Yet, in hearing from the Lord, He is saying that things are about to be flipped. You will see the "fruit" of your labors and they shall be mighty.

Don't give up my friends because things don't look good. God is mixing your "cake" and things will turn out okay. The heat is on, but that is what it takes to "bake the cake." Don't resist the heat. If you do, then things won't turn out the way they should. It would be like taking a cake out of the oven before it has "come together." It would just be a much of batter instead of what it was purposed to be.

God knows exactly what He is doing, so let Him work things out for you. Now rest in the fact that He is with you and let His peace touch you today.
