TWO WORDS FROM GOD

I was awakened out of a sound sleep around 3:00 a.m. yesterday. I got up and used the restroom and went back to bed. As I lay there, I felt prompted to ask the Lord if there was something that He wanted to share with me. Instantly I heard two words.

The first word was ***second wave***, and the second one was ***demolition***. My thoughts were focused on both words. I immediately felt that the Lord was saying that something serious was about to take place. Many have called the corona virus the first wave. Perhaps the second wave will be something different, or something worse, but whatever it is, God wants us to be prepared.

The second word demolition caught me by surprise. As I heard this, my first thoughts were of a building imploding and coming to the ground very quickly. This is what happened to the Twin Towers. There was much evidence it wasn't just the airplanes that took it down. I thought about our government, and the dream I had three years ago about a building coming down.

So, what is God saying by giving these words? He wants His children to be prepared. America is under judgement for its sin. You can't murder innocent babies in the womb, see homosexuality become rampant, destroying the lives of many children through sex trafficking, and be the capitol of pornography and vice without God saying enough is enough.

Is our nation going to implode? Is God preparing us for this? There are many different prophets having dreams of destruction. After 9/11 hit, there was a momentary turn to God, but there has not been any repentance in our nation. In fact, the sin has become grosser and grosser. A just God cannot allow a nation to go unpunished for its sin.

Are you prepared for hard days? Can you survive if our nation is totally destroyed? There are as I write, this numerous uncontrolled fires in California. There is drought in the southeast, and many think that there will be another dust bowl. Crops have been destroyed from flooding in the Midwest. There is rioting in the streets and hatred between brothers and sisters in the church.

Someone said to me the second wave may be a wave of glory, and I could concur it may be for those that seek the heart and face of God, and make a stand for righteousness, but if the second wave that is coming is worse than corona virus, then we certainly need to prepare to survive. Do I enjoy getting messages from God? Not really. I would prefer to enjoy my life and have things normal, but it isn't going to happen. So, I put this out for you to pray about, and take it to heart. Prophets have spoken to me and agree that it needed to be shared.

Don't be caught unprepared my friends. Judgement is here and will get stronger without repentance.
