LOCKDOWN

As I was preparing for our Sunday service yesterday, I heard the Spirit say, "lockdown." Immediately I sensed that this was going to happen very suddenly.

The definition of a lockdown can mean more than one thing. One definition is: "*a state or period in which movement within or access to an area is restricted in the interests of public safety or health.*" This definition would mean that something devastating has happened to bring this about.

Another definition of lockdown is "*solitary confinement.*" Now we would see that in a prison if there were issues happening like a prison break.

Yet, as I was meditating upon this, I believe that it means both things. I believe that we must take time to get alone with God without any interruptions and seek him like we have never sought him before. This could be deemed "solitary confinement."

While in this solitary confinement set apart with God, we will hear what He has to say about any events that could bring a possible lockdown in the natural in our country.

We saw a lockdown during the past four years when masks were required, and jobs were stressed. During that season many succumbed to fear and their lives were turned upside down. This is not what God wanted. He wanted us to be prepared, and most weren't.

God wants to speak to us. He is a rewarder of those that diligently seek him. I would take this word lockdown seriously my friends. As we study scripture and see end time events coming together, there will be a time that will be like no other. I pray you are prepared for it. It is coming sooner than you may imagine.

We are to dwell in the secret place with the Lord. That is our place of protection no matter what happens! Remember, preparation and separation bring peace and guidance.
