THE FORGETTING IMAGINATIONS BOX

So often people are bound up in the sins of their past. Satan tempted them to sin, and then after they yield to the sin, he torments them for doing it, peppering them with thoughts. He tells them they are horrible and can never be a good Christian and that God doesn't love them anymore.

You see my friends Satan doesn't play fair. He comes to steal, kill, and destroy. Those are not fantasy things. They are reality in this life. He will do anything to destroy you. He doesn't want you to have a victorious life!

Satan works in our imaginations with "what ifs" and if we yield to those thoughts he puts into our minds, we will be defeated. We have to "choose" not to think on the thoughts he plants. We have to pull these "strongholds" in our minds down and cast them off.

How do I do this? I often think of a small box with golden filagree and ornamentation on it. There is a keyhole and a special key that only I can use. In my mind, when an evil thought comes or a tormenting thought comes, I unlock my box, and choose to put that thought into the box and slam the lid and lock it. I call it the "my forgetting imaginations box".

I choose to put those imaginations (thoughts from the devil) into that box and leave them there. As long as I keep the box shut, they can't torment me. I choose not to open it anymore. I choose to let those thoughts die in the box.

When we confess our sin to God it is washed away, and he forgets it for eternity. It is a done deal. The war with the devil is mostly in our minds. He will try to bring those imaginations back and when he does you must say NO! They are gone devil and you will not torment me with them anymore.

As this becomes a habit, then you will live more and more victorious with the battle for your mind. Remember, if God forgets our sins, then you need to do that also. They are put into the sea of forgetfulness to never be remembered!

Don't have a box? Then now is the time to have one. Just make sure that you keep the key in your possession!
